## Attention Clinicians: Downtime Forms

Beginning on Friday, March 22, 2019, the anesthesiology downtime forms will be converted to a more modern format. This formal is compatible with electronic scanning to easily have it incorporated into the e Star. This is the only record that should be utilized during downtime, and anesthesia technicians will distribute them when operationally necessary.

Click here for more information.

## Office Security

I want to take this opportunity to remind everyone in the department to be aware of security in the workplace. Take ownership of your workplace and challenge others who do not. Be aware of your surroundings, be aware of strangers, and report anything that seems out of the ordinary to a supervisor, any department leader, or campus security.

On March 7, 2019, there was an incident of unauthorized access to an Anesthesiology faculty office on VCH 3. There were no reports of injury or theft, but we are treating the incident very seriously. The incident has been reported to VUMC Security and Vanderbilt University Police. Security cameras have been installed to monitor the measures in and around the office suite on VCH 3. There will be increased monitoring by VUPD/VUMC over the weekend, access codes to the suite will be changed, and locks will be replaced. Additional security measures are being considered. Let those are the ones that will be implemented immediately.

Please be aware that campus police are available 24/7 and can be reached at 615-322-2142, or call 911 for an emergency. Please report any suspicious activity/people if you only see a car door and the sentiments. Help keep all VUPD security and their your safety.

Please let me know if you have any questions.

Deepak Gokhale

**Attention all 2019 SUA, IARS, SOCCA Annual Meeting Participants**

Supply your information by **Monday, April 8, 2019** at 4 p.m. to be included in the department's SUA, IARS, and SOCCA Meetings Guide.*

If you are attending the Society of Anesthesiologists in Nashville, TN, please be sure to specify the "Season Ticket" or "Ala. - IARS Panel" product.

AUA | IARS | SOCCA

## Revised Clinical Research Application

Per Vanderbilt Anesthesiology Clinical Research Advisory Committee (VACRAC) has updated and refined the process for application and implementation of clinical research projects. The system was revised with the goal of optimizing success and accountability for those wishing to pursue clinical research and ensure the departmental infrastructure provided by the Perioperative Clinical Research Institute (PCRI) and the Vanderbilt Anesthesiology & Pain Medicine Research Foundation (VAPMRF) are used to the greatest extent possible. The revised process can be accessed on the Department website in the Research Toolbox or by entering this link.

## Attention Faculty

This is your first reminder to sign up for the antibiotic stewardship QuickTime module and earn 1 hour of MOC PIA credit for simply participating in 10 multiple choice questions! Don't forget to take advantage of this learning opportunity, to enroll, simply click on the following link: https://vumbme.qtw.qwiz.com/qwiznet/qwiz/QWSMain.htm and choose which modality (text or video) you prefer.

Feel free to contact Brittany Rammond at any time with questions.

## Clinical Faculty: Communication on Training for eStar Upgrade

Click here to read message from Clerkship Director Paul Sternberg regarding enrollment in eLearnings, which will help prepare you for the changes coming with our Sunday, April 7 upgrade to e Star.

## Accepting Applications: Department Faculty Leadership Positions
