

Trial Management
Ophthalmology

Have you recently been diagnosed with Diabetic Macular Edema (DME)?

You may qualify to take part in a clinical research study to evaluate an investigational eye drug if you are:

- Diabetic and your diabetes currently is under control with medications.
- Newly diagnosed with Diabetic Macular Edema.

In this clinical research study:

- Your participation may last around 2 years and include approximately 28 visits.
- You will receive study-related medication and study-related exams at no cost.
- Compensation for your time and travel may be available.
