

## Tenure-track Assistant Professor in Neurology

### Description

The Department of Neurology at Vanderbilt University and the Vanderbilt Memory & Alzheimer's Center is seeking an early career cognitive or behavioral neurologist for a tenure-track Assistant Professor position. The position is structured for a physician/clinician scientist with clinical expertise in mild cognitive impairment, Alzheimer's disease, and related disorders. The candidate would join a growing Cognitive & Behavioral Neurology Division that includes three neurologists, six neuropsychologists, and a cognitive neuroscientist.

In addition to providing multidisciplinary outpatient care through the Cognitive & Behavioral Neurology Division Memory Clinic, protected time is provided for the candidate to develop an independent research program in Alzheimer's disease and related disorders. Vanderbilt University has outstanding neuroscience resources to support basic, clinical, and translational research activities, including the Vanderbilt Institute for Clinical & Translational Research, the Vanderbilt University Institute of Imaging Science, the Vanderbilt Brain Institute, and the Vanderbilt Memory & Alzheimer's Center.

### Position Requirements

Applicants must be board certified or board eligible in neurology and must be able to obtain medical licensure in the State of Tennessee.

### Application Details

Interested candidates should submit a curriculum vita, a cover letter summarizing clinical interests and research objectives, and three letters of recommendation to:

Robert L. Macdonald, MD, PhD, Chair  
Department of Neurology  
Vanderbilt University
