Report of Independent Auditors

The Board of Directors Vanderbilt University Medical Center

Report on the Financial Statements

We have audited the accompanying consolidated financial statements of Vanderbilt University Medical Center, which comprise the consolidated balance sheets as of June 30, 2020 and 2019, and the related consolidated statements of operations, changes in net assets, and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in conformity with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free of material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of Vanderbilt University Medical Center as of June 30, 2020 and 2019, and the consolidated results of its operations and its cash flows for the years then ended in conformity with U.S. generally accepted accounting principles.

Adoption of ASU No. 2016-02, Leases (Topic 842)

As discussed in Note 2 to the consolidated financial statements, Vanderbilt University Medical Center changed its method of accounting for leases as a result of the adoption of Accounting Standards Update No. 2016-02, *Leases (Topic 842)*, effective July 1, 2019. Our opinion is not modified with respect to this matter.

Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the consolidated financial statements as a whole. We have not performed any procedures with respect to the audited consolidated financial statements subsequent to October 13, 2020. The Schedule of Expenditures of Federal Awards and State Financial Assistance as required by Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards is presented for purposes of additional analysis and is not a required part of the consolidated financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The information has been subjected to the auditing procedures applied in the audits of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States. In our opinion, the information is fairly stated, in all material respects, in relation to the consolidated financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we also have issued our report dated October 13, 2020, on our consideration of Vanderbilt University Medical Center's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Vanderbilt University Medical Center's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Vanderbilt University Medical Center's internal control over financial reporting and compliance.

Ernst + Young LLP

October 13, 2020, except for our report on the Schedule of Expenditures of Federal Awards and State Financial Assistance, for which the date is June 14, 2021.

1. Description of Organization

Vanderbilt University Medical Center ("VUMC") is a Tennessee not-for-profit corporation incorporated in March 2015 to operate an academic medical center, including a comprehensive research, teaching, and patient care health system (the "Medical Center"). Until April 29, 2016, the Medical Center operated as a unit within Vanderbilt University ("the University" or "VU"), as a part of the University's administrative structure, with the same governing board, legal, financial, and other shared services.

VUMC began operations effective April 30, 2016, following the closing of the sale of the Medical Center by the University (the "Acquisition"). VUMC owns and operates three hospitals located on the main campus of the University in Nashville, Tennessee: Vanderbilt University Adult Hospital ("VUAH"), Monroe Carell Junior Children's Hospital at Vanderbilt ("MCJCHV"), and Vanderbilt Psychiatric Hospital ("VPH"). In addition, VUMC partially owns Vanderbilt Stallworth Rehabilitation Hospital ("VSRH"), also located on the main campus of the University, through a joint venture with Encompass Health Corp. (formerly called HealthSouth Corp.) in which VUMC holds a 50% interest, which includes a 1% interest held by Vanderbilt Health Services, LLC, ("VHS"), a VUMC wholly owned subsidiary. Effective August 1, 2019, VUMC acquired a fourth hospital from Community Health Systems, Inc.: Tennova Healthcare – Lebanon, now known as Vanderbilt Wilson County Hospital ("VWCH"). VUAH, MCJCHV, VPH, and VWCH are licensed for 1,420 beds, and VSRH is licensed for 80 beds.

VUMC consists of two major operating divisions and an administrative overhead division. The operating divisions include the Clinical Enterprise and Academic Enterprise divisions. The administrative overhead division is referred to as Medical Center Administration ("MCA").

The Clinical Enterprise division includes the professional clinical practice revenues and related expenses of Vanderbilt Medical Group ("VMG"), and technical revenues and associated expenses for the operation of VUMC's hospitals and clinic facilities, including VUAH, MCJCHV, VPH, and VWCH. The Clinical Enterprise also includes VHS.

- VUAH is a quaternary care teaching hospital licensed for 726 acute care and specialty beds.
 VUAH, a Level I trauma center, provides advanced patient care and serves as a key site for medical education and clinical research conducted by physician faculty.
 VUAH includes a comprehensive burn center, the Vanderbilt Transplant Center, the Vanderbilt Heart and Vascular Institute, and the Vanderbilt Ingram Cancer Center.
- MCJCHV is a pediatric quaternary care teaching hospital licensed for 343 beds (159 acute and specialty, 65 pediatric intensive care, and 119 neonatal intensive care). MCJCHV is the region's only full-service pediatric hospital, with over 30 pediatric specialties. MCJCHV serves as a site for medical education and clinical research conducted by pediatric physician faculty, houses the only Level IV neonatal intensive care center and the only Level 1 pediatric trauma center within the region, and is a regional referral center for extracorporeal membrane oxygenation (heart and lung failure).
- VPH is a psychiatric hospital licensed for 106 beds and provides both inpatient and outpatient
 partial hospitalization psychiatric services to both adult and adolescent patients. Also, VPH
 provides psychiatric assessment services, adult intensive outpatient programs, and
 neuromodulation procedures through electroconvulsive therapy and transcranial magnetic
 stimulation.

- VWCH is a two-campus facility licensed for 245 beds and is a substantial provider of both inpatient and outpatient medical services in Lebanon, Tennessee. VWCH also includes an accredited chest pain center, a stroke center, and a comprehensive weight loss center.
- VMG is the practice group of physicians and advanced practice nurses employed by VUMC, most of whom have faculty appointments from the University, who perform billable professional medical services. VMG is not a separate legal entity. VMG has a board which consists of the VUMC clinical service chiefs, who also serve as clinical department chairs. Under the oversight of VUMC executive leadership, VMG sets professional practice standards, bylaws, policies, and procedures. VUMC bills for services rendered by VMG clinicians in both inpatient and outpatient locations. VMG includes nationally recognized physicians whose expertise spans the spectrum from primary care to the most specialized quaternary discipline. The entire clinical faculty is "board certified" or eligible for board certification. All staff members are re-credentialed every two years by the National Committee for Quality Assurance standards. All specialties and subspecialties currently recognized by the various national specialty boards are represented on the clinical faculty.
- VHS serves as a holding company for 16 health care related subsidiaries and joint ventures owned with various entities, including, but not limited to, VSRH and the Vanderbilt Health Affiliated Network ("VHAN"). VHS operations primarily consist of community physician practices, walk-in and retail health clinics, imaging services, outpatient surgery centers, radiation oncology centers, a home health care agency, a home infusion and respiratory service, an affiliated health network, accountable care organizations, and a rehabilitation hospital. These subsidiaries include clinics managed in multiple outpatient locations throughout middle Tennessee and southwestern Kentucky.
- Health Professional Solutions, LLC ("HPS") is a holding company that holds interest in five VUMC subsidiaries that engage in or support various health care activities in order to improve the quality and availability of health care services in the community. These subsidiaries include businesses focused on pharmacy, supply chain, and clinically integrated support services.

The Academic Enterprise division includes all clinically-related research, research-support activities, and faculty endeavors supporting post-graduate training programs. A significant funding source for VUMC's research has historically been the federal government. Federal funding is received from the Department of Health and Human Services, the National Institutes of Health, the Department of Defense, NASA, and other federal agencies. Sponsored research awards, including multiple-year grants and contracts from government sources, foundations, associations, and corporations signify future research commitments. Also, core activities supporting research, including advanced computing and grant administration, are included in this division.

The terms "Company," "VUMC," "we," "our", or "us" as used herein and unless otherwise stated or indicated by context refer to Vanderbilt University Medical Center and its affiliates. The terms "facilities" or "hospitals" refer to entities owned and operated by VUMC and its affiliates, and the term "employees" refers to employees of VUMC and its affiliates.

VUMC operates on a fiscal year which ends on June 30. The term "Fiscal" preceding a year refers to a particular VUMC fiscal year.

2. Summary of Significant Accounting Policies

Basis of Presentation

The accompanying consolidated financial statements have been prepared on the accrual basis in accordance with accounting principles generally accepted in the U.S. ("GAAP"). Based on the existence or absence of donor-imposed restrictions, VUMC classifies resources into two categories: net assets without donor restrictions and net assets with donor restrictions. In addition, these statements follow GAAP applicable to the not-for-profit industry as described in the Financial Accounting Standards Board's ("FASB") Accounting Standards Codification ("ASC") Topic 958.

Principles of Consolidation

The consolidated financial statements include the accounts of VUMC and its wholly owned, majority-owned, and controlled organizations. Noncontrolling interests in less-than-wholly owned consolidated subsidiaries of VUMC are presented as a component of net assets to distinguish between the interests of VUMC and the interests of the noncontrolling owners. All material intercompany transactions and account balances among the various entities have been eliminated.

VUMC uses the equity method to account for its interests in unconsolidated partnerships, joint ventures, and limited liability entities over which it exercises significant influence. Investment carrying amounts are adjusted for VUMC's share of investee earnings or losses based on percentage of ownership. Distributions received from unconsolidated entities that represent returns on VUMC's investment (i.e., dividends) are reported as cash flows from operating activities in VUMC's statement of cash flows.

Use of Estimates

The preparation of consolidated financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect amounts reported in the consolidated financial statements and accompanying notes. These estimates affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated balance sheets and the reported amounts of revenues and expenses during the reporting periods. Actual results ultimately could differ from those estimates.

Cash and Cash Equivalents

Cash and cash equivalents are liquid assets with minimal interest rate risk and maturities of three months or less when purchased. VUMC invests operating assets in a diversified manner. At times, VUMC may have cash and cash equivalents at a financial institution in excess of federally insured limits, and therefore, bears a risk of loss.

Liquidity and Availability

As of June 30, 2020, VUMC has \$2,420.1 million of financial assets available within one year of the balance sheet date to meet cash needs for general expenditures consisting of cash and cash equivalents of \$1,170.5 million, patient accounts receivable of \$470.6 million, pledges receivable of \$7.6 million, and unrestricted investments of \$771.4 million. As of June 30, 2019, VUMC had \$1,670.5 million of financial assets available within one year of the balance sheet date to meet cash needs for general expenditures consisting of cash and cash equivalents of \$574.7 million, patient accounts receivable of \$482.5 million, pledges receivable of \$6.3 million, and unrestricted investments of \$607.0 million. None of these financial assets are subject to donor or other contractual restrictions that make them unavailable for general expenditure within one year of the balance sheet date. Pledges receivable are subject to implied time restrictions but are expected to be collected within one year.

VUMC has a policy to structure its financial assets to be available as its general expenditures, liabilities, and other obligations come due. In addition, as part of its liquidity management, VUMC invests cash in excess of daily requirements in various short-term investments, including certificate deposits and short-term treasury instruments.

As more fully described in Note 11 Long-Term Debt, VUMC also has committed lines of credit in the amount of \$250.0 million, with \$100.0 million drawn as of June 30, 2020, which it could draw upon in the event of an unanticipated liquidity need.

Revenue Recognition - Patient Services

VUMC recognizes revenue from patient services at the amount that reflects the consideration to which VUMC expects to be paid for providing such services. These amounts, representing transaction price, are due from patients, third-party payors (including health insurers and government programs), and others and include variable consideration for retroactive revenue adjustments due to settlements of audits, reviews, and investigations. Patient service revenue is recognized as performance obligations based on the nature of the services provided by VUMC are satisfied.

Performance obligations satisfied over time relate to admitted patients in VUMC hospitals receiving inpatient acute care services from admission to the point when services are no longer required, which is generally at the time of discharge. Revenue for performance obligations satisfied over time is recognized based on actual charges incurred in relation to total expected or actual charges. Outpatient services are performance obligations satisfied at a point in time with the related revenue being recognized when goods or services are provided.

VUMC has elected to apply the optional exemption provided in FASB (ASC) 606-10-50-14 as substantially all of its performance obligations relate to contracts with a duration of less than one year. Therefore, VUMC is not required to disclose the aggregate amount of the transaction price allocated to performance obligations that are unsatisfied or partially satisfied at the end of the reporting period. Unsatisfied or partially satisfied performance obligations are primarily related to in-house patients at the end of the reporting period. The performance obligations for these contracts are generally completed when the patients are discharged, which is typically within a week.

VUMC uses a portfolio approach consisting of major payor classes to account for categories of patient contracts as a collective group rather than recognizing revenue on an individual contract basis. Based on historical collection trends and other analysis, VUMC believes that revenue recognized by utilizing the portfolio approach approximates the revenue that would have been recognized if an individual contract approach were used.

VUMC determines the transaction price, which involves estimates and judgment, based on standard charges for goods and services provided, reduced by explicit and implicit price concessions, including contractual adjustments provided to third-party payors, discounts provided to uninsured and underinsured patients in accordance with VUMC policy, and historical collection experience. VUMC analyzes its history and identifies trends for each of its major revenue categories to estimate the appropriate price concessions. Management regularly reviews data about these major revenue categories in evaluating the reasonableness of the transaction price, taking into consideration recent experience by payor category, payor agreement rate changes, and other factors.

In addition to patient payments, VUMC earns revenue and reimbursements from certain services provided under federal healthcare programs and other contracts with third-party payors. These compensation arrangements are complex programs which extend over multiple accounting periods and are subject to the interpretation of federal and state-specific reimbursement rates, new or

changing legislation, and final cost report settlements. Estimated settlements under these programs are recorded in the period the related services are performed and are subsequently adjusted, as needed, based on new information.

VUMC provides care to patients who meet the criteria for charity care under its financial assistance policy for no payment or at payment amounts less than its established charge rates. VUMC does not recognize the charges that qualify as charity care as revenue because VUMC does not pursue collection of these amounts.

Revenue Recognition - Non-Patient Services

Revenue for non-patient services is recognized at an amount that reflects the consideration VUMC expects to be entitled in exchange for providing goods or services. The amounts recognized reflect considerations due from customers, the U.S. government, and others, and is recognized as performance obligations are satisfied. Primary categories of non-patient revenue include academic and research revenue as well as other miscellaneous activities as further described in Note 8 Other Relevant Financial Information.

VUMC receives funding through grants and contracts issued by departments and agencies of the U.S. government, industry, and other foundation sponsors who restrict the use of such funds to academic and research purposes. VUMC recognizes revenue from these grants and contracts in accordance with contract terms, as defined in the agreements governing that funding. VUMC recognizes facilities and administrative ("F&A") costs recovery as revenue when the allowable expenditure is incurred on the associated grant or contract. This activity represents reimbursement, primarily from the federal government, of F&A costs on sponsored activities.

Grants and contracts receivable include amounts due from these sponsors of externally funded research. These amounts have been billed or are billable to the sponsor and are recorded at the amount that reflects the consideration VUMC expects to receive.

Deferred Revenue

Deferred revenue is recorded for funds received in advance. The related revenue is recognized when the performance obligations have been met.

Gift Income and Pledges

VUMC recognizes unconditional promises to give cash and other assets, referred to as pledges, as gift income at fair value when the pledge is received. Conditional promises to give are recognized as pledges once the conditions are substantially met. Pledges are recognized as net assets with donor restrictions. Gifts received with donor stipulations limiting the use of the donated assets are reported as net assets with donor restrictions. Donor-restricted contributions whose restrictions are met within the same year as received are reported as gift income in the accompanying consolidated statements of operations. Gift income is recognized when a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished. Gifts of cash or other assets that must be used to acquire long-lived assets are reported as net assets with donor restrictions until the assets are placed in service, at which point they are reclassified to net assets without donor restrictions.

Pledges receivable are reported net of allowances for uncollectible amounts based on an analysis of past collection experience and other judgmental factors. Pledges receivable are included in other current or other noncurrent assets in the consolidated balance sheets based on the expected timing of cash flows. VUMC discounts the noncurrent portion of pledges receivables at a rate commensurate with the scheduled timing of receipt. VUMC applied annual discount rates ranging from 0.5% to 1.5% to amounts outstanding as of June 30, 2020 and 2019.

Concentrations of Credit Risk

VUMC grants unsecured credit to its patients, primarily residing in Nashville, Tennessee and the surrounding areas of middle Tennessee, most of whom are insured under commercial, Medicare, or TennCare agreements. Medicare, Blue Cross Blue Shield ("BCBS"), and TennCare (which includes BCBS, United, and Amerigroup) represent VUMC's significant concentrations of credit risk from payors.

Inventories

VUMC reports inventories at the lower of cost or market, with cost being determined on the first-in, first-out method. Inventories consist primarily of medical supplies, surgical implants, and pharmaceuticals.

Restricted Cash

VUMC reports cash whose use is restricted at cost, which approximates fair value. The cash is primarily restricted for use in purchasing and constructing property, plant, and equipment.

Investments

VUMC reports investments held at fair value in the consolidated balance sheets. VUMC records purchases and sales of securities on the trade dates, and realized gains and losses are determined based on the average historical cost of the securities sold. VUMC reports net receivables and payables arising from unsettled trades as a component of investments.

Property, Plant, and Equipment, Net

VUMC records purchases of property, plant, and equipment at cost and expenses repairs and maintenance costs as incurred. VUMC capitalizes interest cost incurred on borrowed funds during the period of construction of capital assets as a component of the cost of acquiring those assets. VUMC capitalizes donated assets at fair value on the date of donation.

Capitalized software for internal use is recorded during the application development stage. These costs include fees paid to third parties for direct costs of materials and services consumed in developing or obtaining the software; payroll related costs and capitalized interest costs. Costs for training and application maintenance in the post-implementation operation stage are expensed as incurred.

VUMC computes depreciation using the straight-line method over the estimated useful life of land improvements (5 to 18 years), buildings and leasehold improvements (2 to 40 years), and equipment (1 to 20 years). Equipment costs also include capitalized internal use software costs, which are expensed over the expected useful life, which is generally 3 to 12 years. VUMC assigns useful lives in accordance with American Hospital Association guidelines.

Software for internal use is amortized on a straight-line basis over its estimated useful life. In determining the estimated useful life, management considers the effects of obsolescence, technology, competition, other economic factors, and rapid changes that may be occurring in the development of software products, operating systems, and computer hardware. Amortization begins once the software is ready for its intended use.

Impairment of Long-Lived Assets

VUMC reviews long-lived assets, such as property, plant, and equipment, for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. VUMC measures the recoverability of assets to be held and used by comparing the carrying amount of an asset to estimated undiscounted future cash flows expected to be generated by the asset. If the carrying amount of an asset exceeds its estimated future cash flows, VUMC recognizes an impairment charge to the extent the carrying amount of the asset exceeds its fair value.

Conditional Asset Retirement Costs and Obligations

VUMC recognizes the estimated fair value of liabilities for existing legal obligations to perform certain activities, primarily asbestos removal, in connection with the retirement, disposal, or abandonment of assets. These liabilities are included in other noncurrent liabilities on the consolidated balance sheets and total \$6.5 million and \$6.3 million as of June 30, 2020 and 2019, respectively. VUMC measures these liabilities using estimated cash flows with an inflation rate applied of 3.0% as of June 30, 2020 and 2019. VUMC discounts those cash flow estimates at a credit-adjusted, risk-free rate, which ranged from 2.9% to 4.2% as of June 30, 2020 and 2019, and adjusts these liabilities for accretion costs and revisions in estimated cash flows.

Long-Term Debt

The carrying value of VUMC's debt is the par amount adjusted for the net unamortized amount of debt issuance costs, and bond premiums and discounts.

Interest Rate Exchange Agreements

VUMC reports interest rate exchange agreements at fair value, which is determined to be the present value of future net cash settlements that reflect market yields as of the measurement date and estimated amounts that VUMC would pay, or receive, to terminate the contracts as of the report date. VUMC considers current interest rates and creditworthiness of the interest rate exchange counterparties when estimating termination settlements.

Self-Insurance Reserves

VUMC elects to self-insure a portion of its medical malpractice, professional, and general liability coverage via an irrevocable self-insurance trust. For Fiscal 2020, the maximum annual self-insurance retention was \$6.0 million per occurrence, up to \$46.0 million in the aggregate. For Fiscal 2019, the maximum annual self-insurance retention was \$5.5 million per occurrence, up to \$43.0 million in the aggregate. Actuarial firms assist management in estimating expected losses on an annual basis, at which time VUMC records medical malpractice, professional, and general liability expense within the limits of the program. These liabilities are classified as current or noncurrent based on the expected timing of cash flows and are measured at the net present value of those cash flows using a discount rate of 2.5% as of June 30, 2020 and 2019. For both Fiscal 2020 and 2019, VUMC obtained excess medical malpractice, professional, and general liability coverage from commercial insurance carriers for claims exceeding the retention limits, up to \$150.0 million. These policies would also provide coverage up to \$150.0 million if any claims in the aggregate exceeded the retention limits.

VUMC also elects to self-insure for employee health and workers' compensation expenses. Actuarial firms assist management in estimating expected losses on an annual basis. The maximum retention for workers' compensation was \$0.8 million per occurrence for both Fiscal 2020 and 2019. There is no stop loss insurance on health plan claims.

Income Taxes

VUMC is a tax-exempt organization as described in Section 501(c)(3) of the Internal Revenue Code (the "Code") and is generally exempt from federal income taxes under Section 501(a) of the Code.

Excess of Revenues Over Expenses

The consolidated statements of operations include excess of revenues over expenses as a performance indicator. Excess of revenues over expenses includes all changes in net assets without donor restrictions, except for changes in noncontrolling interest holders' share of consolidated entities, net assets released from restrictions used for capital, and certain other items.

Statement of Cash Flows

For VUMC's consolidated statements of cash flows, cash, cash equivalents, and restricted cash is defined as those amounts included in the cash and cash equivalents caption and restricted cash caption on the consolidated balance sheets.

Recent Accounting Pronouncements

Periodically, the FASB issues Accounting Standards Updates ("ASUs") that may impact the recognition, measurement, and presentation of balances and activity in VUMC's consolidated financial statements or the disclosures contained within those statements. As part of preparing consolidated financial statements, VUMC evaluates the effects of the ASUs and applies the updated guidance within the required effective dates.

Adopted

 In February 2016, the FASB issued ASU 2016-02, Leases, which requires lessees to recognize assets and liabilities for most leases. VUMC adopted this standard on July 1, 2019, using a modified retrospective approach and therefore applied the transition provisions to the most recent period presented in the consolidated financial statements, recognizing assets and offsetting obligations for current operating leases.

Not Yet Adopted

• In August 2018, the FASB issued ASU 2018-13, Fair Value Measurement, Disclosure Framework – Changes to the Disclosure Requirements for Fair Value Measurement. This ASU intends to improve the effectiveness of disclosures in the notes to the financial statements by modifying disclosure requirements for fair value measurements. The ASU is effective for VUMC for annual and interim periods beginning after December 15, 2019 with early adoption permitted. VUMC is currently assessing the impact that ASU 2018-13 will have on the consolidated financial statements and will adopt the provisions upon the effective date.

3. Related Parties

On April 29, 2016, VUMC acquired the assets, liabilities, rights, and obligations of the clinical enterprise, postgraduate medical training programs, and clinically related research of the University's owned and operated Medical Center, "the Acquisition".

The assets acquired and liabilities assumed from the Acquisition were detailed in a Master Transfer and Separation Agreement ("MTSA"). The MTSA contains the framework for the ongoing economic relationship between VUMC and the University. The relationship is memorialized in the form of an Academic Affiliation Agreement ("AAA"), a Trademark License Agreement ("TMLA"), a Ground

Lease, and a Reciprocal Master Services Agreement ("MSA"). The agreements are described below.

• The AAA outlines the ongoing academic, research, and clinical affiliation between the University and VUMC for all the University's degree-granting, certificate, and research programs. The AAA allocates responsibility between the University and VUMC for jointly administered research and academic programs and is an exclusive agreement between VUMC and VU requiring VUMC to be organized, governed, and operated in a manner that supports VU's academic and research mission. The agreement provides that VU will be the exclusive academic affiliate of VUMC, and VUMC will be the exclusive clinical affiliate of VU.

The AAA requires VUMC to pay VU an annual fee in equal monthly payments adjusted annually for inflation based upon the Biomedical Research and Development Price Index ("BRDPI") in perpetuity under certain mutually agreed-upon termination or default clauses. During Fiscal 2020 and 2019, VUMC recorded operating expense totaling \$76.9 million and \$74.9 million, respectively, in connection with fees due under the AAA.

- Under the TMLA, the University grants, subject to certain consents and approvals, a perpetual license to use various University-owned licensed marks in connection with VUMC's fundamental activities after the Acquisition date. The licensed marks, which VUMC continues to use as its primary brands, include virtually all those previously in use by VUMC. This agreement requires VUMC to pay VU a monthly royalty payment equal to 1.0% of all operating revenue of VUMC and a percentage of net income from operations (10% in Fiscal 2019 and 15% in Fiscal 2020 and beyond). During Fiscal 2020 and 2019, VUMC recorded operating expense totaling \$70.4 million and \$63.8 million, respectively, in connection with royalty fees due under the TMLA. Also, VUMC is required to pay in equal monthly installments an annual TMLA base fee, which increases 3% annually, but is also reduced by the amount of principal payments made under a subordinate note discussed in Note 11 Long-Term Debt (the "Fixed TMLA Royalty Payment"). During Fiscal 2020 and 2019, VUMC recorded operating expense totaling \$62.5 million and \$60.6 million, respectively, in connection with this base fee. VU sold its rights to future royalty payments to a third party. The TMLA is in force in perpetuity under certain mutually agreed-upon termination or default clauses.
- The Ground Lease is an agreement between VU and VUMC that allows VUMC to use the land on which VUMC's campus and related buildings are located. The initial term of the Ground Lease ends June 30, 2115, with the option to extend the lease for two additional terms of up to 50 to 99 years each with agreement between VU and VUMC. The lease covers 1.7 million square feet or 38.75 acres of space, payable monthly and CPI adjusted annually. During Fiscal 2020 and 2019, VUMC recorded operating expense totaling \$19.4 million and \$19.0 million, respectively, in connection with fees due under the Ground Lease.
- The University and VUMC provide services to one another for agreed-upon consideration as outlined in the MSA. VU provides services to VUMC, such as information technology infrastructure support, utilities, and law enforcement staffing. VUMC provides various operational services for the University, such as a student health clinic and animal care. Additionally, the MSA encompasses an Employee Matters Agreement ("EMA") and specific Employee Service Agreements ("ESAs"). The EMA and ESAs govern employee transactions and ongoing sharing between VU and VUMC in various capacities, such as research, teaching, clinical, and other administrative services. Services under the MSA can be terminated by either party subject to predetermined cancellation notification periods. In connection with the MSA,

during Fiscal 2020 and 2019, VUMC recognized revenue totaling \$44.2 million and \$45.1 million, respectively, and recorded operating expense totaling \$123.4 million and \$122.8 million, respectively.

Also, as part of the Acquisition, VUMC issued to VU a \$100.0 million subordinate promissory note payable, which is further described in Note 11 Long-Term Debt, with a balance of \$79.6 million as of June 30, 2020, and \$84.6 million as of June 30, 2019. VU sold its rights to future principal and interest payments on this note to a third party.

The impact of these agreements in the consolidated statements of operations during Fiscal 2020 and 2019 is as follows:

(\$ in thousands)	2020		2019		
Academic and research revenue Other operating revenue	\$	13,055 31,192	\$	14,401 30,745	
Total operating revenues	\$	44,247	\$	45,146	
Operating expenses Salaries, wages, and benefits	\$	9,086	\$	7,725	
Facilities and equipment Services and other Interest		59,516 284,040 2,661		58,872 274,512 2,823	
Total operating expenses	\$	355,303	\$	343,932	

Other current assets include amounts receivable from VU, which totaled \$6.7 million as of June 30, 2020, and \$4.9 million as of June 30, 2019. Accounts payable and other accrued expenses include amounts payable to related parties, which totaled \$51.1 million as of June 30, 2020, and \$47.7 million as of June 30, 2019.

In the normal course of business, members of VUMC's Board of Directors or VUMC employees may be directly or indirectly associated with companies engaged in business activities with VUMC. VUMC has a written conflict of interest policy that requires, among other things, that members of the VUMC community (including trustees) may not review, approve, or administratively control contracts or business relationships when (i) the contract or business relationship is between VUMC and a business in which the individual or a family member has a material financial interest, or (ii) the individual or a family member is an employee of the business and is directly involved with activities pertaining to VUMC.

Furthermore, VUMC's conflict of interest policy extends beyond the foregoing business activities in that disclosure is required for any situation in which an applicable individual's financial, professional, or other personal activities may directly or indirectly affect, or have the appearance of affecting, an individual's professional judgment in exercising any VUMC duty or responsibility, including the conduct or reporting of research.

The policy extends to all individual members of the VUMC community (including Board of Directors, VUMC Officials, full-time, part-time, temporary faculty and staff). Each applicable person is required to certify compliance with the conflict of interest policy on an annual basis. This certification includes specifically disclosing whether VUMC conducts business with an entity in which he or she (or an immediate family member) has a material financial interest, as well as any other situation that could appear to present a conflict with VUMC's best interests.

When situations exist relative to the conflict of interest policy, VUMC takes active measures to appropriately manage the actual or perceived conflict in the best interests of VUMC, including periodic reporting of measures taken to the Audit Committee of the Board of Directors.

4. Patient Service Revenue, Patient Accounts Receivable, and Estimated Third-Party Settlements

Management has determined that the nature, amount, timing, and uncertainty of revenue and cash flows are affected by the major classes of payors. The sources of patient service revenue by payor for Fiscal 2020 and 2019 are as follows:

(\$ in thousands)	2020		2019		
Other third-party payors, primarily commercial carriers	\$	2,553,307	\$	2,355,860	
Medicare/Managed Medicare		924,241		896,843	
TennCare/Medicaid		522,606		529,785	
Uninsured (self-pay)		31,566		38,383	
	\$	4,031,720	\$	3,820,871	

Patient accounts receivable comprise amounts due from the following sources as of June 30, 2020 and 2019:

(\$ in thousands)	2020			2019		
Medicare	\$	77,696	\$	72,473		
TennCare/Medicaid	•	57,741	·	65,903		
Blue Cross		99,861		115,023		
Other third-party payors, primarily commercial carriers		192,258		184,774		
Patient responsibility ⁽¹⁾		42,994		44,312		
Patient accounts receivable	\$	470,550	\$	482,485		

⁽¹⁾ Includes self-pay after insurance.

Estimated third-party settlements by major payor category as of June 30, 2020 and 2019, are as follows:

(\$ in thousands)	2020		 2019	
Receivables under third-party programs Tricare/Champus ⁽¹⁾	\$	4,484	\$ 8,536	
Total receivables under third-party programs	\$	4,484	\$ 8,536	
Payables under third-party programs TennCare/Medicaid	\$	37,781	\$ 18,896	
Medicare ⁽¹⁾ Other		9,752 2,908	14,517 -	
Total payables under third-party programs	\$	50,441	\$ 33,413	

⁽¹⁾ These two federal healthcare programs are combined for presentation purposes on the face of the consolidated balance sheets and are reflected as an obligation in Fiscal 2020 and Fiscal 2019.

Certain contracts require pay for performance or episode of care settlements whereby VUMC receives additional payment or pays a penalty based on its ability to achieve certain clinical measures or manage the cost of care for patients within various thresholds. VUMC estimates and accrues these adjustments in the period the related services are rendered and adjusts these estimates in future periods as settlements are finalized. The aggregate liability associated with pay for performance and episode of care settlements at June 30, 2020 and 2019, was \$2.5 million and \$1.3 million, respectively, with the ultimate resolution of such financial arrangements not expected to have a material impact on the operating results of VUMC.

Medicare

Amounts received under Medicare are subject to review and final determination by program intermediaries or their agents. Final settlements have been reached for program periods ended June 30, 2015. Final settlements have not been reached for subsequent years due to audit delays experienced with the Medicare Administrative Contractor, and thus, those periods remain subject to audit by program representatives.

TennCare

TennCare is a Medicaid managed care program implemented by the state of Tennessee to provide healthcare coverage to those patients eligible for Medicaid through the Federal 1115 Waiver Program. VUMC contracts with each of the three TennCare managed care organizations ("MCOs"), which offer health maintenance organization ("HMO") and Medicare Special Needs Products for Dual Eligible Enrollees. VUMC receives inpatient reimbursement through payments that are primarily based on the Medicare severity diagnostic related group system ("MS-DRG") for these plans. VUMC receives outpatient payments generally based on an ambulatory payment classification system ("APC"), and/or a payor-developed fee schedule.

In accordance with the Tennessee Hospital Assessment Act, VUMC receives a payment of a portion of its unreimbursed TennCare costs based upon VUMC's share of uninsured TennCare costs for all of the covered hospitals.

There is no assurance that this program will be continued in its current structure or will not be materially modified in the future, however, we anticipate funding will remain relatively stable over the coming year.

In Fiscal 2020 and 2019, patient service revenue includes the following supplemental amounts received in each respective period from TennCare and the associated reserves for those payments, changes in estimates effecting reserves are excluded:

(\$ in thousands)	2020		 2019	
Charity pool	\$	24,696	\$ 12,246	
Graduate medical education		14,592	14,603	
Trauma fund		1,685	1,600	
Virtual disproportionate share		960	-	
Total supplemental TennCare revenue, net of audit provision	\$	41,933	\$ 28,449	
·				

5. Charity Care Assistance, Community Benefits, and Other Unrecovered Costs

VUMC maintains a policy which sets forth the criteria under which health care services are provided to patients who have minimal financial resources to pay for medical care. Additionally, VUMC provides other services that benefit the economically disadvantaged for which little or no payment is expected.

Charity care is determined by examining patient and family income relative to the federal poverty guidelines. VUMC provides additional discounts based on the income level of the patient household using a sliding scale for those patients with a major catastrophic medical event not qualifying for full charity assistance. Tennessee law mandates that all uninsured patients receive a discount from billed charges for medically necessary services. These amounts are classified as charity care if the patient meets charity care criteria, for which no revenue is recorded, or is included as a part of price concessions.

VUMC maintains records to identify and monitor the level of charity care provided, and these records include gross charges and patient deductibles, coinsurance and copayments foregone for services furnished under its charity care policy, and the estimated cost of those services. VUMC calculates a ratio of total costs to gross charges and then multiplies the ratio by foregone charity care charges in determining the estimated cost of charity care. The gross amount of foregone charity care revenue in Fiscal 2020 and 2019 totals \$422.7 million and \$341.5 million, respectively. The estimated cost of providing care to charity patients in Fiscal 2020 and 2019 totals \$110.1 million and \$89.9 million, respectively.

In addition to the charity care services described above, TennCare/Medicaid and state indigent programs do not cover the full cost of providing care to beneficiaries of those programs. As a result, in addition to direct charity care costs, VUMC provided services related to TennCare/Medicaid and state indigent programs and was reimbursed substantially below the cost of rendering such services. VUMC also provides public health education and training for new health professionals and provides, without charge, services to the community at large for many patients with special needs.

6. Academic and Research Revenue, and Grants and Contracts Receivable

Academic and research revenue comprises the following for Fiscal 2020 and 2019:

(\$ in thousands)	2020			2019	
Grants and contracts revenue					
Federally funded	\$	297,651	\$	297,758	
Non-federally funded		132,557		113,423	
		430,208		411,181	
Facilities and administrative costs recovery		122,614		108,266	
Academic and research revenue	\$	552,822	\$	519,447	

Grants and contracts receivable comprise the following as of June 30, 2020 and 2019:

(\$ in thousands)	2020			2019		
Federally funded Non-federally funded	\$	28,077 31,954	\$	28,171 30,579		
Total grants and contracts receivable	\$	60,031	\$	58,750		

7. Pledges Receivable, Net

Pledges receivable, net of applied discounts and allowance for uncollectible pledges, as of June 30, 2020 and 2019, were as follows:

(\$ in thousands)	2020			2019		
Amounts due						
Within one year	\$	11,347	\$	8,072		
In one to five years		24,809		25,027		
Total pledges receivable		36,156		33,099		
Unamortized discount		(1,112)		(1,296)		
	·	35,044		31,803		
Allowance for uncollectible pledges		(6,126)		(3,317)		
Net pledges receivable	\$	28,918	\$	28,486		
Net pledges receivable classified as						
Current	\$	7,552	\$	6,327		
Noncurrent		21,366		22,159		
	\$	28,918	\$	28,486		

In addition to pledges reported as pledges receivable, VUMC had cumulative bequest intentions and conditional promises to give totaling \$66.9 million as of June 30, 2020, and \$65.8 million as of June 30, 2019. Due to their conditional nature, VUMC does not recognize intentions to give as assets.

8. Other Relevant Financial Information

Other current assets comprise the following as of June 30, 2020 and 2019:

(\$ in thousands)	2020		2019	
Prepaid expenses Other receivables Amounts due from VU (see Note 3 Related Parties)	\$	35,728 55,483 6,684	\$	39,610 31,261 4,929
Current pledges receivable, net (see Note 7 Pledges Receivable, Net) Expected recoveries from commercial insurance excess		7,552		6,327
coverage Other		2,652 10,340		3,345 3,839
Total other current assets	\$	118,439	\$	89,311

Other noncurrent assets comprise the following as of June 30, 2020 and 2019:

(\$ in thousands)	 2020	2019		
Equity in unconsolidated organizations Noncurrent pledges receivable (see Note 7 Pledges	\$ 23,234	\$	21,480	
Receivable, Net)	21,366		22,159	
Other	 8,747		4,428	
Total other noncurrent assets	\$ 53,347	\$	48,067	

Other operating revenues comprise the following for Fiscal 2020 and 2019:

(\$ in thousands)	 2020	2019	
CARES funding	\$ 130,399	\$ -	
Clinical contracts	46,886	40,952	
Amounts recognized under MSA with VU (see Note 3			
Related Parties)	31,192	30,745	
VHS other revenue	28,176	23,622	
Nonclinical contracts	11,898	8,442	
Resident and house staff rotations	10,557	11,507	
Other	42,035	 41,743	
Total other operating revenue	\$ 301,143	\$ 157,011	

9. Investments

VUMC investments are made up of current investments, restricted cash, noncurrent investments, and noncurrent investments limited as to use on the face of the consolidated balance sheets. VUMC investments include assets limited as to use related to the following specified purposes as of June 30, 2020 and 2019:

(\$ in thousands)	 2020	2019		
Self-insured malpractice program	\$ 46,223	\$	52,069	
Donor endowments	52,590		38,443	
Split-interest trusts	7,124		7,383	
Supplemental employee retirement program assets	 7,589		5,714	
	\$ 113,526	\$	103,609	

VUMC's endowment does not include gift annuities, interests in trusts held by others, contributions pending donor designation, or contributions receivable.

The Board of Directors' interpretation of its fiduciary responsibilities for donor-restricted endowments under the Uniform Prudent Management of Institutional Funds Act ("UPMIFA") requirements is to preserve intergenerational equity, barring the existence of any donor-specific provisions. Under this broad guideline, future endowment beneficiaries should receive at least the same level of real economic support as the current generation. The overarching objective is to preserve and enhance the real (inflation-adjusted) purchasing power of the endowment in perpetuity. VUMC invests assets to provide a relatively predictable and stable stream of earnings to meet spending needs and attain long-term return objectives without the assumption of undue risks.

Self-insured malpractice program – VUMC elects to self-insure a portion of its medical malpractice, professional, and general liability via an irrevocable self-insurance trust.

Donor endowments – Donor-restricted gifts where the principal amount is to be held in perpetuity. Distributions of earnings are restricted for use according to the donor's intent, as specified in a gift agreement. Donor endowments typically benefit specific programs in clinical departments of the Medical Center, for either, research, directorships, or general program support.

Split-interest trusts – Trusts established by donors where VUMC is named as beneficiary. Depending on the terms of the trust, VUMC may receive periodic distributions, and potentially a principal amount at some point in the future. Like donor endowments, split-interest trusts typically benefit specific programs as defined in the terms of the trust.

Supplemental executive retirement program assets – Assets set aside to fulfill obligations as they come due according to the terms of the retirement program.

Investments were as follows as of June 30, 2020 and 2019:

(\$ in thousands)	2020		2019	
Corporate bonds	\$	235,249	\$	153,940
Equity mutual funds		128,569		128,287
Cash and cash equivalents		13,147		9,436
Split-interest trusts		7,124		7,383
Hedged equity mutual funds		64,986		61,401
Fixed income mutual funds		190,054		167,079
Certificates of deposit		16,338		25,897
Asset-backed securities		26,448		29,506
Real estate mutual funds		20,680		18,969
Commercial paper		22,218		10,916
Government bonds		80,145		10,604
Hedged debt mutual funds		70,958		86,678
Commodities and managed futures mutual funds		15,902		6,895
Target date mutual funds		4,865		5,544
Total investments, at fair value	\$	896,683	\$	722,535

Investment returns comprise the following elements for Fiscal 2020 and 2019:

(\$ in thousands)	2020			2019		
Interest and dividend income	\$	19,013	\$	19,749		
Net realized gains on sales of securities		5,025		10,847		
Realized investment gains, before fees		24,038		30,596		
Unrealized investment gains (losses), net		3,637		(126)		
Total investment returns before fees		27,675		30,470		
Investment manager and trustee fees and other		(451)		(364)		
Total income from investments, net	\$	27,224	\$	30,106		

VUMC has exposure to risks, including liquidity, interest rate, counterparty, basis, regulatory, market, and credit risks, for marketable securities. Due to the level of risk exposure, it is possible that material near-term valuation changes for investment securities may occur.

VUMC manages all investments, including endowments, in various investment pools.

10. Property, Plant, and Equipment, Net

Property, plant, and equipment comprise the following as of June 30, 2020 and 2019:

(\$ in thousands)	2020		2019	
Land and land improvements Buildings and improvements	\$	40,800 1,189,614	\$	33,404 1,005,364
Equipment and software Leasehold improvements Construction in progress		562,360 86,869 77,739		441,091 82,322 145,380
Property, plant, and equipment at cost		1,957,382		1,707,561
Accumulated depreciation and amortization		(432,279)		(312,466)
Property, plant, and equipment, net	\$	1,525,103	\$	1,395,095

As part of the MTSA, VUMC acquired land and land improvements and buildings and improvements which are not allowed to be repurposed without the express consent of VU.

In Fiscal 2020 and 2019, VUMC capitalized interest of \$2.9 million and \$6.0 million, respectively, related to long-term capital projects, primarily the MCJCHV expansion and the VUAH bed expansion.

Property, plant, and equipment balances above include the following amounts related to capitalized internal use software:

(\$ in thousands)	2020		2019		
Equipment and software	\$	167,897	\$	158,189	
Construction in progress		11,063		2,976	
		178,960		161,165	
Accumulated amortization		(40,823)		(26,063)	
Internal use software, carrying value	\$	138,137	\$	135,102	

Depreciation and amortization comprise the following amounts in Fiscal 2020 and 2019:

(\$ in thousands)	2020			2019		
Depreciation of tangible assets Amortization of finance leases, leasehold improvements,	\$	97,976	\$	82,236		
and internal use software		28,678		24,288		
Total depreciation and amortization	\$	126,654	\$	106,524		

11. Long-Term Debt

Long-term debt comprises the following as of June 30, 2020 and 2019:

	2020	2019		
(\$ in thousands)	Carrying Amount	Carrying Amount	Effective Interest Rate ⁽²⁾	Fiscal Year of Maturity

⁽¹⁾ The effective interest rate of 3.7% as of June 30, 2020, is presented exclusive of interest rate exchange agreements discussed in Note 12 Interest Rate Exchange Agreements. Inclusive of these agreements, the overall portfolio effective interest rate was 4.0%.

⁽²⁾ The effective interest rate for each debt instrument is calculated by dividing each instrument's interest expense by the weighted average debt outstanding, and where applicable, interest expense is reduced by premium amortization and increased by original issue discount amortization. Interest rates per the agreements are detailed in the accompanying notes.

On April 29, 2016, VUMC issued the Series 2016 A, B, D, E, and F bonds ("2016 Series Debt") and notes aggregating \$1.3 billion of proceeds for the purpose of financing the Medical Center Acquisition and paying a portion of the costs of issuance associated with the 2016 Series Debt.

The bonds and notes comprising the 2016 Series Debt were issued by the Health and Educational Facilities Board of The Metropolitan Government of Nashville and Davidson County, Tennessee ("HEFB"). As a conduit issuer, the HEFB loaned the debt proceeds to VUMC. VUMC's debt service requirements under these loan agreements coincide with required debt service of the actual HEFB bonds.

- The Series 2016A tax-exempt fixed-rate revenue bonds were issued in the par amount of \$476.9 million and include an original issue premium of \$59.6 million. The Series 2016A bonds have a final maturity date of July 1, 2046, and can be optionally redeemed at par on or after July 1, 2026. The 2016A bonds were structured as serial bonds with maturities from Fiscal 2030 through 2032, as well as three term bonds maturing Fiscal 2036 through 2047, which are subject to mandatory sinking fund redemption in lots. The Series 2016A bonds bear interest at 5% per annum and pay interest semiannually on July 1 and January 1.
- The Series 2016B taxable fixed-rate revenue bonds were issued in the par amount of \$300.0 million, bearing interest at 4.1% per annum. Interest is paid semiannually on July 1 and January 1, and has a bullet maturity of July 1, 2026. VUMC is entitled, at its option, to redeem all or a portion of the Series 2016B bonds before April 1, 2026, at a make-whole redemption price, which equals the greater of (i) 100% of the remaining outstanding principal and (ii) the net present value of the remaining scheduled principal and interest payments to the original maturity date, using a discount rate of 35 basis points above rates for U.S. Treasury securities with comparable maturities.
- The Series 2016D taxable variable-rate revenue notes ("floating rate notes") were issued in the par amount of \$100.0 million and bear interest initially at a fixed spread to one-month LIBOR of 2.5% through the initial mandatory tender date of July 1, 2021, and a final maturity of July 1, 2046. Beginning six months prior to the mandatory tender date of July 1, 2021, the bonds have an optional redemption feature. If the Series 2016D bonds are successfully remarketed at the mandatory tender date, they are subject to mandatory redemption in lots commencing on July 1, 2021, and each July thereafter until final maturity.
- The Series 2016E taxable term loan revenue notes were issued in the par amount of \$128.1 million and were placed privately with a bank. The notes bear interest in a variable-rate mode at a fixed spread to one-month LIBOR of 2.4% through the initial mandatory tender date of July 1, 2022, and a final maturity of July 1, 2046. During Fiscal 2018, VUMC renegotiated the interest to a variable-rate mode at a fixed spread to one-month LIBOR of 1.8%. In addition to optional redemption of all or a portion of the notes at any time, subject to notice, the Series 2016E notes are subject to principal amortization commencing on July 1, 2022, as defined in the Series 2016E loan agreement between VUMC and the lender. During Fiscal 2020, the Series 2016E bonds were extinguished using proceeds from the 2019B taxable fixed private placement notes, discussed further below.
- The Series 2016F taxable variable-rate revenue bonds were issued in the par amount of \$75.0 million and were placed privately with a bank. The bonds bear interest in a variable-rate mode at a fixed spread to one-month LIBOR of 2.5% through the initial mandatory tender date of July 1, 2022. During Fiscal 2018, \$53.1 million of the Series 2016F bonds were extinguished using proceeds from the 2018 tax-exempt fixed-rate revenue bonds, discussed further below. The renegotiated interest rate on the remaining \$21.9 million of principal outstanding is a

variable-rate mode at a fixed spread to one-month LIBOR of 1.2%. The remaining principal has a mandatory tender date of July 1, 2024. Prior to that, VUMC must pay \$2.1 million of principal on July 1, 2022, and \$2.2 million of principal on July 1, 2023. The remaining \$17.6 million of principal is due on July 1, 2024.

On July 26, 2017, the Series 2017A Tax-Exempt and Series 2017 Taxable Corporate Bonds were issued, and on August 1, 2017, the Series 2017B Taxable Revenue Bonds were issued ("2017 Series Debt"), aggregating \$271.3 million of proceeds for the purpose of refinancing existing debt, funding capital projects related to the MCJCHV expansion and the VUAH bed expansion/clinical relocation, which is a phased project, and paying a portion of the costs of issuance associated with the 2017 Series Debt.

The Series 2017A Tax-Exempt Revenue Bonds and the Series 2017B Taxable Term Loan Revenue Note were issued by the HEFB. The Series 2017 Taxable Bonds were a corporate issue with VUMC as the issuer.

- The Series 2017A tax-exempt fixed-rate revenue bonds were issued in the par amount of \$121.3 million and include an original issue premium of \$5.1 million. The final maturity date is July 1, 2048, and optional redemption at par can occur on or after July 1, 2027. The Series 2017A bonds bear interest at 4.4% per annum and pay interest semiannually on July 1 and January 1.
- The Series 2017 taxable fixed-rate corporate bonds were issued in the par amount of \$100.0 million, bearing interest at 4.2% per annum. Interest is paid semiannually on July 1 and January 1, and the bonds have a final maturity date of July 1, 2037. There is a bullet payable beginning July 1, 2026, that allows VUMC to call the debt.
- The Series 2017B taxable variable-rate term loan notes were issued in the par amount of \$50 million and placed privately with a bank. The notes bear interest initially at a fixed-spread to one-month LIBOR of 1.2%. The notes have a final maturity date of July 1, 2046, a tender date of August 1, 2024, and may be redeemed at any time. Proceeds from the issuance of the Series 2017B notes were used to extinguish the Series 2016C R-FLOATs, initially issued on April 29, 2016.

On April 20, 2018, the Series 2018 Tax-Exempt Revenue Bonds ("2018 Series Debt") aggregating \$53.4 million of proceeds were issued for the purpose of refinancing existing debt and paying a portion of the costs of issuance associated with the 2018 Series Debt. The Series 2018 Tax-Exempt Revenue Bonds were issued by the HEFB, were placed privately with a bank, and bear interest at a fixed spread to 81% of one-month LIBOR of 0.6%. The bonds have a final maturity date of July 1, 2049 and can be optionally redeemed on or after July 1, 2025. Proceeds from the issuance of the Series 2018 bonds were used to extinguish a portion of the Series 2016F taxable variable-rate bonds.

On July 30, 2019, VUMC entered into a term loan agreement (2019A Term Loan) with a lender for \$35 million to pay for the acquisition of Tennova – Lebanon (now Vanderbilt Wilson County Hospital) hospital facilities, near term capital expenditures, and costs of issuance. The term loan bears interest at a variable rate plus a fixed spread to one-month LIBOR of 0.50% through the maturity date of August 1, 2029. VUMC has the option to redeem prepay all or a portion of the loan at any time, subject to notice. The 2019 loan is subject to principal amortization commencing on July 1, 2024 and ending July 1, 2049, as defined in the 2019 loan agreement between VUMC and the lender.

On October 22, 2019, the Series 2019B Taxable Fixed Private Placement Notes ("Series 2019B Notes") aggregating \$128.6 million of proceeds were issued for the purpose of refinancing existing debt and paying a portion of the costs of issuance associated with the Series 2019B Notes. The lender for the Series 2019B Notes was New York Life. The Series 2019B Notes were placed privately with a bank, and bear interest at a fixed rate of 3.9% per annum. The notes have a final maturity date of July 1, 2054. Proceeds from the issuance of the Series 2019B Notes were used to extinguish the Series 2016E Taxable Term Loan Revenue Notes.

On April 9, 2020, the Series 2020A Taxable Fixed Term Loan ("Series 2020A Loan") aggregating \$300 million was issued to provide additional liquidity during the COVID-19 pandemic. The lender for the Series 2020A Loan was JPMorgan Chase Bank. The debt bears interest at a fixed rate of 2.1% per annum, has an optional redemption after one year, and has a final maturity date of April 1, 2022. As of June 30, 2020, these funds have not been used and are held in cash and investments on the consolidated balance sheet.

Each of the bonds and notes comprising the 2016, 2017, 2018, 2019, and 2020 Series Debt represent separate obligations under a Master Trust Indenture ("MTI") structure. The MTI provides the flexibility for multiple parties to participate in debt issuances as part of an obligated group; presently, VUMC has no other third-party members participating in the obligated group. All debt issued under the MTI is a general obligation of the obligated group. Under the provisions of the Leasehold Deed of Trust, Security Agreement, Assignment of Rents and Leases, and Fixture Filing (the "Security Agreement") within the MTI, gross receivables of the obligated group are pledged as collateral. Additionally, the Security Agreement established a mortgage lien on (i) the leasehold interest of the land subject to the Ground Lease; (ii) the buildings, structures, improvements, and fixtures now or hereafter located on the land subject to the Ground Lease; and (iii) certain other collateral.

Trust indentures for certain bond issues contain covenants and restrictions, the most material of which include limitations on the issuance of additional debt, maintenance of a specified debt service coverage ratio, and a minimum amount of days cash on hand. VUMC complied with such covenants and restrictions as of June 30, 2020 and 2019.

On April 29, 2016, VUMC delivered a secured subordinated promissory note in the amount of \$100.0 million to the University to finance the Acquisition (the "subordinated note"). In July of 2018, VU sold its rights to future principal and interest payments on this note to a third party. The note was issued at a fixed rate of 3.25% with monthly principal payments totaling \$5.0 million annually commencing on May 31, 2016, for a period of 20 years ending on April 30, 2036. VUMC may, at any time and from time to time, without premium or penalty, prepay all or any portion of the unpaid principal amount of the subordinated note. This note is secured by the gross receivables and mortgaged property described in the Security Agreement subject to the requirements of the 2016 Series Debt and the MTI.

As part of the Acquisition, VUMC assumed a 10-year, unsecured, noninterest-bearing product financing arrangement with a vendor for the purchase and implementation of internal use software. As part of this agreement, VUMC committed to an annual payment of \$0.5 million payable in monthly installments through November 2019. These payments were considered imputed interest. During Fiscal 2020, the annual payment increased to \$5.3 million payable in monthly installments. These payments are considered principal and imputed interest and continue through Fiscal 2027. The balance due under the Product Financing Arrangement is \$29.2 million and \$31.5 million as of June 30, 2020 and 2019, respectively. At June 30, 2020 and 2019, \$4.1 million and \$1.9 million was included in the current portion of long-term debt caption, with the remaining balance in long-term debt, net of current portion.

In Fiscal 2020 and 2019, noncash investing and financing activities totaled \$19.1 million and \$2.4 million, respectively, related to finance leases.

VUMC has an agreement with a bank to provide a general use line of credit with a maximum available commitment totaling \$100.0 million. On March 18, 2020, VUMC drew down the available \$100 million, which bears interest at a fixed spread to one-month LIBOR of 0.7% and has no maturity date if the line of credit is renewed annually. The outstanding balance on the line of credit is \$100.0 million and \$0.0 million as of June 30, 2020 and 2019, respectively. The line of credit accrues a commitment fee of 0.15% per annum on any unused portion of the line of credit.

VUMC established three additional lines of credit with banks in Fiscal 2020:

- \$50 million line of credit with Truist, bearing interest at a fixed spread to one-month LIBOR of 1.0%, maturing in FY 2022 with a commitment fee of 0.25% on any unused portion of the line of credit.
- \$50 million line of credit with Truist, bearing interest at a fixed spread to one-month LIBOR of 0.85%, maturing in FY 2021 with a commitment fee of 0.25% on any unused portion of the line of credit.
- \$50 million line of credit with Bank of New York Mellon, bearing interest at a fixed spread to one-month LIBOR of 1.4%, maturing in FY 2021 with a commitment fee of 0.25% on any unused portion of the line of credit.

As of June 30, 2020, VUMC has not drawn on any of these three new lines of credit. Commitment fees for the lines of credit totaled \$0.2 million in Fiscal 2020.

Interest paid on all obligations, net of amounts capitalized, was \$62.7 million and \$59.7 million in Fiscal 2020 and 2019, respectively.

Principal retirements and scheduled sinking fund requirements based on nominal maturity schedules for long-term debt due in subsequent fiscal years ending June 30 are as follows:

(\$ in thousands)

2021	\$ 114,321
2022	412,963
2023	14,763
2024	14,528
2025	79,658
Thereafter	 1,275,651
	\$ 1,911,884

12. Interest Rate Exchange Agreements

On April 29, 2016, the University transferred an interest rate exchange agreement to VUMC with a total notional amount of \$150.0 million and an original termination date of May 1, 2040. VUMC split the transferred notional amount into two agreements, with key features summarized below:

Notional Amount	Pay Fixed Rate	Receive Variable Rate	Mandatory Termination Date
\$75.0 million	4.12%	68% of one-month LIBOR	April 29, 2021 ⁽¹⁾
\$75.0 million	4.18%	68% of one-month LIBOR	April 29, 2023

⁽¹⁾ As of June 30, 2020, we were negotiating to extend the mandatory termination date for this agreement. Subsequent to the balance sheet date, we executed this agreement which extended the mandatory termination date to April 2026. Under these new terms, the fixed rate increases to 4.28% starting May 3, 2021.

VUMC incorporated these interest rate exchange agreements into its debt portfolio management strategy. Collateral pledging requirements were removed from the novated agreements, and the agreements were modified to either be negotiated, extended, or terminated automatically on April 29, 2021 and 2023, at which point the exchange agreements will be settled at fair value.

VUMC recorded the following activity related to the interest rate exchange agreements during Fiscal 2020 and 2019:

(\$ in thousands)	 2020	 2019
Mark-to-market adjustments Cash settlements	\$ (32,441) (4,711)	\$ (13,695) (3,785)
Unrealized loss on interest rate exchange agreements, net of cash settlements	\$ (37,152)	\$ (17,480)

13. Leases

VUMC has operating and finance leases for real estate, personal property and equipment. VUMC determines if an arrangement is a lease at the inception of a contract. Leases with an initial term of twelve months or less are not recorded on the consolidated balance sheets.

VUMC has lease agreements which require payments for lease and non-lease components and has elected to account for these as a single lease component. For leases that commenced before the effective date of ASU 2016-02, VUMC elected the permitted practical expedients to not reassess the following: (i) whether any expired or existing contracts contain leases; (ii) the lease classification for any expired or existing leases; and (iii) initial direct costs for any existing leases.

Right-of-use assets represent VUMC's right to use an underlying asset during the lease term, and lease liabilities represent VUMC's obligation to make lease payments arising from the lease. Right-of-use assets and liabilities are recognized at the commencement date, based on the net present value of fixed lease payments over the lease term. VUMC's lease terms include options to extend or terminate the lease when it is reasonably certain that the options will be exercised. As most of

VUMC's operating leases do not provide an implicit rate, VUMC uses its incremental borrowing rate based on the information available at the commencement date in determining the present value of lease payments. VUMC considers recent debt issuances, as well as publicly available data for instruments with similar characteristics when calculating its incremental borrowing rates. Finance lease agreements generally include an interest rate that is used to determine the present value of future lease payments. Operating fixed lease expense and finance lease depreciation expense are recognized on a straight-line basis over the lease term. Variable lease costs consist primarily of common area maintenance.

Operating and finance lease right-of-use assets and lease liabilities as of June 30, 2020 is as follows:

(\$ in thousands)	Balance Sheet Classification		2020	
Assets:				
Operating leases	Operating leases	\$	846,695	
Finance leases	Property, plant, and equipment, net		16,712	
Total lease assets		\$	863,407	
Liabilities:				
Current:				
Operating leases	Current portion of operating lease liabilities	\$	70,062	
Finance leases	Current portion of long-term debt		5,206	
Noncurrent:				
Operating leases	Noncurrent portion of operating lease liabilities		797,811	
Finance leases	Long-term debt, net of current portion		10,774	
Total lease liabilities		\$	883,853	
Weighted-average remaining term:				
Operating leases			57.3 years	
Finance leases			3.8 years	
Weighted-average discount rate:				
Operating leases			3.7%	
Finance leases			2.4%	

Included in the tables above is the Ground Lease with VU expiring in 2115 discussed below. Excluding this lease, the weighted average remaining lease term for VUMC's operating leases is 8.7. The land lease comprises \$489.7 million of the operating lease asset and \$492.5 million of the operating lease liability detailed below.

Lease expense for finance and operating leases for the year ended June 30, 2020, are as follows:

(\$ in thousands)	2020		
Finance lease expense:			
Amortization of leased assets	\$	4,433	
Interest on lease liabilities		273	
Operating lease expense (1)		107,358	
Short-term lease expense (1)		3,787	
Variable lease expense (1)		13,321	
	\$	129,172	

⁽¹⁾ Expense is included in "Facilities and equipment" in the consolidated statements of operations.

The following table presents supplemental cash flow information for the year ended June 30, 2020:

(\$ in thousands)		2020	
Cash paid for amounts included in the measurement of lease liabilities:			
Operating cash flows for operating leases	\$	103,166	
Operating cash flows for finance leases		273	
Financing cash flows for finance leases		4,334	

The following table reconciles the undiscounted minimum lease payments to the operating and financing lease liabilities recorded on the consolidated balance sheet at June 30, 2020:

(\$ in thousands)		Operating Leases		Finance Leases	
2021	\$	98,655	\$	5,396	
2022		79,773		3,832	
2023		69,309		3,231	
2024		62,709		2,692	
2025		59,110		1,253	
Thereafter		1,888,989		-	
Total minimum lease payments		2,258,545		16,404	
Less: amount of lease payments representing interest	(1,390,672)		(424)	
Present value of future minimum lease payments		867,873		15,980	
Less: current lease obligations		(70,062)		(5,206)	
Long-term lease obligations	\$	797,811	\$	10,774	

In Fiscal 2019, rent expense was \$124.8 million.

Essential provisions of leases considered by management to be material are as follows:

- On April 29, 2016, VUMC entered into a Ground Lease with VU for approximately 1.7 million square feet of land for an initial term ending June 30, 2115, and an option to extend for up to two additional terms of 50 to 99 years each upon agreement by VU and VUMC. The initial annual base rent of \$19.4 million is payable monthly, and is CPI adjusted annually. The Ground Lease allows VUMC to use the land on which its campus and related buildings are located. Included in the table above are \$1.8 billion in ground lease payments representing future minimum rentals based on current payments.
- In July 2007, VU entered into an agreement to lease approximately 50% of the space in the 850,000 square foot One Hundred Oaks shopping center located approximately five miles from the main campus ("100 Oaks Lease"). VU redeveloped this leased space primarily for medical and office uses. This operating lease commenced during Fiscal 2009 with an initial lease term of 12 years. In October 2014, VU agreed to an amendment which extends the original lease term by an additional 15 years, with an option to renew the lease further for four additional 10-year periods. As part of the lease agreement, the lessee also has first rights on leasing additional space in the shopping center and first rights on purchasing if the landlord desires to sell. On April 29, 2016, the 100 Oaks Lease was assigned to VUMC. As a condition of the assignment, amendments to the 100 Oaks Lease were added which required VUMC to provide the landlord a \$25.0 million irrevocable standby letter of credit, pay a \$13.2 million refinancing penalty payable to the landlord, and pay \$7.8 million of the landlord's closing costs, financing fees, and prepayment penalties associated with a refinancing of the landlord's debt. The prepayment penalty and closing costs were recorded as part of the Acquisition. The irrevocable standby letter of credit must remain in place through April 29, 2026. The amounts related to this standby letter of credit are recorded as facilities and equipment expense and totaled \$0.2 million in both Fiscal 2020 and 2019. VUMC included minimum property rental payments totaling \$118.6 million related to this space in the above minimum lease payments table.
- On April 29, 2016, VU assigned to VUMC a lease for approximately 231,000 square feet of
 office space at 2525 West End Avenue with expiration dates ranging from 2026 through 2030,
 with options to renew for two additional five-year periods. VUMC included minimum lease
 payments totaling \$67.8 million related to this space in the above minimum lease payments
 table.
- On April 29, 2016, VUMC and VU entered into certain lease agreements for the use of space in buildings owned by both entities. As of June 30, 2020, VUMC's estimated future minimum lease payments to VU totaled \$22.1 million. Estimated future lease receipts from VU for the fiscal year ended June 30, 2021, are \$7.4 million, subject to annual renewal.

14. Net Assets

Net asset restrictions relate to the following purposes as of June 30, 2020 and 2019:

(\$ in thousands)	2020		2019	
Donor-restricted - time or purpose Property, plant, and equipment Research and education Operations	\$	10,920 106,167 4,661	\$	11,023 88,084 3,841
Total donor-restricted - time or purpose	\$	121,748	\$	102,948
Donor restricted - perpetuity Research and education	\$	64,807	\$	52,949

Net assets without donor restrictions are free of donor-imposed restrictions. This classification includes all revenues, gains, and losses not restricted by donors. VUMC reports all expenditures in net assets without donor restrictions since the use of restricted contributions in accordance with donors' stipulations results in the release of the restriction.

Donor restricted – time or purpose contain donor-imposed stipulations that expire with the passage of time or that can be satisfied by the action of VUMC. These net assets may include unconditional pledges, split-interest agreements, interests in trusts held by others, and accumulated appreciation on donor-restricted endowments not yet appropriated by the Board of Directors for distribution. Donor gifts that are restricted for funding capital projects are considered released from restriction once related capital expenditures have been made and the asset is placed in service.

Donor restricted – perpetuity contains amounts held in perpetuity as requested by donors. These net assets may include unconditional pledges, donor-restricted endowments, split-interest agreements, and interests in trusts held by others. Generally, the donors of these assets permit VUMC to use a portion of the income earned on related investments for specific purposes.

UPMIFA specifies that unless stated otherwise in a gift instrument, donor-restricted assets in an endowment fund are restricted assets until appropriated for expenditure. Barring the existence of specific instructions in gift agreements for donor-restricted endowments, VUMC reports the historical value of such endowments as donor restricted – perpetuity and the net accumulated appreciation as donor restricted – time or purpose. In this context, the historical value represents the original value of initial contributions restricted as permanent endowments plus the original value of subsequent contributions and, if applicable, the value of accumulations made in accordance with the direction of specific donor gift agreements.

15. Fair Value Measurements

Fair value measurements represent the amount at which the instrument could be exchanged in an orderly transaction between market participants at the measurement date. VUMC utilizes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value into three levels:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that VUMC has the ability to access.
- Level 2 Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the assets or liabilities, and inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement. Unobservable inputs reflect VUMC's assumptions about the inputs market participants would use in pricing the asset or liability, including assumptions about risk. Unobservable inputs are developed based on the best information available in the circumstances and may include VUMC's own data.

VUMC's principal assets and liabilities are cash and cash equivalents, investments, patient accounts receivable, estimated receivables and payables under third-party programs, grants and contracts receivable, pledges receivable, accounts payable and other accrued expenses, self-insurance reserves, long-term debt, and interest rate exchange agreements. Except for long-term debt, the carrying amount of these assets and liabilities approximates fair value.

As of June 30, 2020, the carrying value and estimated fair value of total long-term debt totaled \$2.0 billion and \$2.0 billion, respectively. As of June 30, 2019, the carrying value and estimated fair value of total long-term debt totaled \$1.5 billion and \$1.6 billion, respectively. VUMC bases estimated fair value of long-term debt on market conditions prevailing at fiscal year-end reporting dates. Besides potentially volatile market conditions, fair value estimates typically reflect limited secondary market trading. The fair values of the fixed-rate Series Debt, as defined in Note 11 Long-Term Debt, were based on a Level 2 computation using quoted prices for similar liabilities in active markets as of June 30, 2020 and 2019, as applicable. The carrying amounts related to VUMC's variable-rate Series Debt and other long-term debt obligations approximate their fair values as of June 30, 2020 and 2019. As of June 30, 2020 and 2019, the fair values of the subordinated note payable and the product financing arrangement were based on a Level 2 discounted cash flow approach applying a risk-adjusted spread for issuers of similar credit quality to U.S. Treasury yields for securities with comparable maturities.

For financial instruments measured at fair value on a recurring basis, the following tables summarize valuation hierarchy levels as of June 30, 2020 and 2019, determined by the nature of the financial instrument and the least observable input significant to the fair value measurement:

		Fair V	alue	Measureme	nts as	of June 30	, 202	20

VUMC employs derivatives, primarily interest rate exchange agreements, to help manage interest rate risks associated with variable-rate debt. In addition to the credit risk of the counterparty owing a balance, VUMC calculates the fair value of interest rate exchange agreements based on the present value of future net cash settlements that reflect market yields as of the measurement date.

Parties to interest rate exchange agreements are subject to risk for changes in interest rates, as well as the risk of credit loss in the event of nonperformance by the counterparty. VUMC deals only with high-quality counterparties that meet rating criteria for financial stability and credit-worthiness.

16. Retirement Plan

VUMC's full-time employees participate in a 403(b) defined contribution retirement plan administered by a third party. For eligible employees with one year of continuous service, this plan requires employer matching of employee contributions up to 5% of eligible compensation. The employee immediately vests in these contributions.

VUMC funds the obligations under this plan through monthly transfers to the respective retirement plan administrator with the corresponding expense recognized in the year incurred. During Fiscal 2020 and 2019, VUMC recognized \$69.8 million and \$64.1 million, respectively, of expense in connection with this plan.

17. Functional Expense

(\$ in thousands)

VUMC provides general health care services primarily to residents within its geographic location and supports research and education programs. Total operating expense by nature and function for Fiscal 2020 and 2019 were as follows:

For the year ended June 30, 2020

				cademic				
		Services		earch and ducation		ninistrative nd Other		Total
Salaries, wages, and benefits	\$. , ,		\$ 542,728		\$ 179,561		2,495,795

Salaries, wages, and benefits Supplies and drugs Facilities and equipment		1,613,439 831,059 156,210	Res	cademic wearch and ducation 490,280 47,418 38,257	Adn	187,191 13,734 74,507	\$	2,290,910 892,211 268,974
Salaries, wages, and benefits Supplies and drugs Facilities and equipment Services and other		1,613,439 831,059 156,210 517,935	Res	490,280 47,418 38,257 95,339	Adn	187,191 13,734 74,507 87,805	\$	2,290,910 892,211 268,974 701,079

Certain expense categories are attributable to more than one function. Therefore, these expenses require an allocation on a reasonable basis that is consistently applied. The expenses that are allocated include salaries, wages, and benefits, and services and other.

18. Commitments and Contingencies

Management has policies, procedures, and an organizational structure to enforce and monitor compliance with government statutes and regulations. VUMC's compliance with such laws and regulations is subject to future government review and interpretations, as well as regulatory actions unknown or unasserted at this time.

 Litigation. VUMC is a defendant in certain lawsuits alleging medical malpractice and civil action.

On August 16, 2016, VUMC received written notice from VU of a third-party claim which could, if determined adversely to VU, require indemnification by VUMC pursuant to the provisions of the MTSA, dated as of April 29, 2016. The third-party claim was prompted by a lawsuit (Cassell v. Vanderbilt University, et al., No. 3:16-cv-02086 (U.S.D.C. M.D. TN)) brought by current and former employees of VU which alleged claims relating to administration of the Vanderbilt University Retirement Plan and New Faculty Plan. A settlement in the matter was reached and was approved by the United States District Court for the Middle District of Tennessee in late October 2019, under which Plaintiffs dismissed their lawsuit in exchange for payment by VU of \$14.5 million. VUMC had established a liability reserve reflecting its estimated liability under the settlement, net of proceeds of applicable policies of insurance. Settlement funds were deposited with the settlement administrator and were distributed to Plan participants beginning in April 2020, and the litigation is now resolved.

In late Fiscal 2018, VUMC identified that standing orders used in certain VUMC clinical departments may not have been documented and entered appropriately. Upon further review, VUMC determined that medical record documentation required to support the medical necessity for the services rendered pursuant to certain of such orders was insufficient and that certain reimbursement amounts received for the services so ordered must consequently be repaid. Repayments totaling approximately \$2.7 million were made to governmental and commercial payors during the period from December 2019 through March 2020.

In December 2019, VUMC was notified by the Internal Revenue Service ("IRS") of its intention to conduct an examination of the VUMC 403b Retirement Plan for the year ending December 31, 2017. During that examination, VUMC identified certain concerns relating to the calculation of the employer match provided under the Plan, which was implemented by VUMC in April 2016. VUMC is evaluating options to resolve these concerns; if they are not resolved favorably, correction of the concerns could be required by the IRS. VUMC has established a liability reserve relating to the potential cost to correct such issues.

Through the operation of its compliance program, VUMC from time to time initiates the review of billing for clinical services provided by VUMC and its affiliated providers. VUMC has established a liability reserve relating to certain matters under review as of June 30, 2020, which is not material to VUMC's overall financial position.

 Regulations. VUMC's compliance with regulations and laws is subject to future government reviews and interpretations, as well as regulatory actions unknown at this time. VUMC believes that the liability, if any, from such reviews will not have a significant effect on VUMC's consolidated financial position.

- Medical Malpractice Self-Insurance. The consolidated balance sheets include reserves for medical malpractice, professional, and general liability coverage totaling \$60.3 million as of June 30, 2020, and \$56.3 million as of June 30, 2019. These liabilities are measured at the net present value of those cash flows using a discount rate of 2.5% at both dates and are classified as current or noncurrent based on the expected timing of cash flows. Other current assets include expected recoveries from commercial insurance carriers under excess coverage arrangements totaling \$2.7 million as of June 30, 2020, and \$3.3 million as of June 30, 2019. During Fiscal 2020 and 2019, VUMC recorded expenses for medical malpractice self-insurance of \$26.0 million and \$23.5 million, respectively.
- Employee Health and Workers' Compensation Insurance. Accrued compensation and benefits included actuarially determined liabilities for employee health and workers' compensation claims totaling \$16.9 million and \$6.1 million, respectively, as of June 30, 2020, and \$17.3 million and \$6.6 million, respectively, as of June 30, 2019. During Fiscal 2020 and 2019, VUMC recorded expenses for self-insured employee health benefit plans, net of employee premiums, totaling \$181.5 million and \$177.2 million, respectively. During Fiscal 2020 and 2019, VUMC recorded expenses for self-insured workers' compensation plans of \$2.9 million and \$2.8 million, respectively.
- Federal and State Contracts and Other Requirements. Expenditures related to federal and state grants and contracts are subject to adjustment based upon review by the granting agencies. Amounts of expenditures that granting agencies might disallow cannot be determined at this time. These amounts affect government grants and contracts revenue, as well as facilities and administrative costs recovery. VUMC does not expect these costs to impact the consolidated financial position by material amounts.
- Health Care Services. In Fiscal 2020 and 2019, 83% and 85%, respectively, of VUMC's operating revenue was generated by providing health care services, where revenue is affected by reimbursement arrangements with federal and state healthcare programs, commercial insurance, and other managed care payors. If reimbursement rates from third-party payors decrease or if contract terms become less favorable in future periods, VUMC's operating revenues may decline. See Note 4 Patient Service Revenue, Patient Accounts Receivable, and Estimated Third-Party Settlements, for further information regarding healthcare revenues and related receivables.
- HIPAA Compliance. Under the Health Insurance Portability and Accountability Act of 1996 ("HIPAA"), the federal government has authority to complete fraud and abuse investigations. HIPAA has established substantial fines and penalties for offenders. VUMC maintains policies, procedures, and organizational structures to enforce and monitor compliance with HIPAA, as well as other applicable local, state, and federal statutes and regulations.
- Construction. VUMC had contractual commitments under major construction and equipment contracts totaling \$90.2 million and \$113.7 million as of June 30, 2020 and 2019, respectively.
- Letter of Credit. As a requirement of the assignment of the 100 Oaks Lease described in Note 13 Leases, VUMC provided an irrevocable standby letter of credit of \$25.0 million to the landlord of the property dated June 10, 2016.

19. Other Events

COVID-19

In January of Fiscal 2020, the Secretary of the U.S. Department of Health and Human Services ("HHS") declared a national public emergency due to a novel strain of coronavirus. During March of this fiscal year, the World Health Organization designated the outbreak of this coronavirus, known as COVID-19, as a global pandemic. This global health crisis has impacted many facets of our business. Patient volumes and the related revenue for most services were significantly lower in the fourth quarter of Fiscal 2020 as various policies were implemented by federal, state and local governments in response, including stay-at-home orders issued by the Governor of Tennessee and Mayor of Nashville resulting in business closures, social distancing and suspension of elective and nonemergent procedures. Potential changes in payor mix were evaluated to determine impact on collectability estimates and ultimately the recognition of revenue. VUMC experienced supply chain disruptions, including price increases in medical supplies, particularly personal protective equipment. The pandemic also created significant volatility in the U.S. and global financial markets that impacted VUMC's investment portfolios. Through June 30, 2020, volumes rebounded from the mid-March through mid-May periods with many metrics approaching pre-COVID-19 levels, as certain of these policies, such as stay-at-home orders and suspension of elective and nonemergent procedures were lifted. Due to the evolving nature of the COVID-19 pandemic, despite these positive indicators, the ultimate impact to VUMC and its financial condition is presently unknown.

Sources of pandemic relief include the federal stimulus package known as The Coronavirus Aid, Relief, and Economic Security ("CARES") Act, which was signed into law on March 27, 2020. The Act provides an estimated \$2.2 trillion to fight the COVID-19 pandemic, stimulate the U.S. economy and provide emergency assistance to affected individuals and businesses, including hospitals and other healthcare providers. The CARES Act includes a number of provisions important to our industry, including \$100.0 billion under the Public Health and Social Services Emergency Fund ("Provider Relief Fund") to reimburse eligible health care providers for health care-related expenses or lost revenues not otherwise reimbursed that are directly attributable to COVID-19. These provider relief funds included \$50 billion distributed to providers based on their share of the Medicare fee-for-service reimbursement ("General Distributions"). Also included was funding for certain targeted distributions ("Targeted Distributions") to qualifying providers (primarily rural and high impact areas). As of June 30, 2020, VUMC has recognized approximately \$83.3 million in General Distributions and \$35.7 million in Targeted Distributions, for a total of \$119.0 million, under the Provider Relief Fund of the CARES Act. These amounts are presented in Other operating revenue in our consolidated statement of operations.

In addition, the CARES Act provides for an expansion of the Medicare Accelerated and Advance Payment Program whereby inpatient acute care hospitals and other eligible providers may request accelerated payment of up to 100% of their Medicare payment amount for a six-month period to be repaid through withholding of future Medicare fee-for-service payments beginning 120 days after receipt. During Fiscal 2020, VUMC received advance payments from Medicare of \$222.4 million, which has been recorded as a current liability on our consolidated balance sheet.

On October 1, 2020, a continuing resolution for the Medicare Accelerated and Advance Payment Program was signed (the Resolution), updating key provisions of the program. Under the revised terms of the program, health care providers will have one year before the Centers for Medicare and Medicaid Services (CMS) begins to recoup these advance payments by offsetting them against newly submitted claims. Additionally, once the recoupment period begins, for the first 11 months,

only 25% of the claims amount will be withheld, and for the following 6 months, only 50% of the claims amount with be withheld. In total, a provider will have 29 months from the first payment to repay these advances. After the repayment period expires, the remaining balance will be subject to interest. The interest rate, which was previously 10.25%, has been reduced to 4%. VUMC is still assessing the impact the Resolution will have on the consolidated financial statements, if any.

The CARES Act also allows for deferred payment of the employer portion of certain payroll taxes between March 27, 2020 and December 31, 2020, with 50% due December 31, 2021 and the remaining 50% due December 31, 2022. VUMC began deferring these payroll tax payments during the fourth quarter of Fiscal 2020. As of June 30, 2020, VUMC had deferred payroll tax payments of approximately \$27.6 million, which are included in Other noncurrent liabilities in the consolidated balance sheet.

Through the Paycheck Protection Program and Health Care Enhancement Act (the "PPPHCE Act"), which was enacted on April 24, 2020, we recognized an additional \$11.4 million as a payroll retention credit in Other operating revenue.

To provide more liquidity during the global health crisis, we drew on our \$100.0 million existing line of credit and executed the \$300.0 million Series 2020A Loan. We also executed three additional lines of credit totaling \$150.0 million out of an abundance of caution. As of June 30, 2020, no amounts have been drawn on the new lines of credit. These agreements were discussed further in Note 11 Long-Term Debt.

Subsequent to June 30, 2020 and through the date this report was issued, VUMC has received an additional \$9.5 million in Targeted Distributions.

Acquisition of VWCH

Effective August 1, 2019, VUMC acquired a two-campus hospital facility licensed for 245 beds from Community Health Systems, Inc. ("CHS"): Tennova Healthcare – Lebanon, now known as Vanderbilt Wilson County Hospital ("VWCH") for total consideration of \$19.3 million. VUMC's acquisition included not only the two-campus hospital facilities, but also related physician clinic operations and outpatient services that now bear the Vanderbilt name including: Vanderbilt Surgery Center, Vanderbilt Sleep Disorders Center, Vanderbilt Primary Care, Vanderbilt Primary Care Walk-In, and Vanderbilt Gastroenterology. VWCH is staffed by more than 200 community physicians and employs approximately 600 administrators, nurses, and support personnel. After the acquisition, VUMC retained substantially all employees of the hospital's previous owner.

The following table summarizes the fair value of net assets acquired:

(\$ in thousands)

Inventories	\$ 2,966
Other current assets	865
Property, plant, and equipment, net	15,780
Accounts payable and other accrued expenses	 (359)
Total invested capital	\$ 19,252

20. Subsequent Events

On September 19, 2020, the Department of Health and Human Services (HHS) released additional reporting requirements for health care entities that have received either (or both) General and Targeted Distributions from the Provider Relief Fund (PRF). The Post-Payment Notice of Reporting Requirements (the Notice) changes previous reporting requirement guidance issued on July 20, 2020 and amended on August 14, 2020 and could have an impact on how health care entities account for and record PRF payments. HHS intends to issue Frequently Asked Questions to aid in the reporting process. VUMC is still assessing the impact the Notice will have on the consolidated financial statements, if any.

On September 30, 2020, VUMC announced plans to purchase two hospitals from subsidiaries of CHS. The two hospitals (Tennova Healthcare-Shelbyville and Tennova Healthcare-Harton) have a total of 195 beds. A definitive agreement has been executed for the sale of the facilities and related businesses, including physician clinic operations and other outpatient services. VUMC also announced plans to acquire a minority ownership interest in CHS's Tennova Healthcare-Clarksville hospital, a 270-bed facility, from CHS's existing minority partner, GHS Holdings, LLC, a whollyowned subsidiary of Clarksville Volunteer Health, Inc., a non-profit corporation based in Clarksville, TN. The definitive agreement provides for VUMC to acquire GHS Holdings' 20% ownership interest in Tennova Healthcare-Clarksville and related physician practices.

Management evaluated events after June 30, 2020 through October 13, 2020, the date on which the consolidated financial statements were issued. During this period, other than discussed previously, there were no subsequent events requiring recognition or disclosure in the consolidated financial statements that have not been recorded or disclosed.

Vanderbilt University Medical Center Notes to the Schedule of Expenditures of Federal Awards and State Financial Assistance For the Year Ended June 30, 2020

1. Significant Accounting Policies Used in Preparing the SEFA

The accompanying Schedule of Expenditures of Federal Awards and State Financial Assistance (the Schedule) includes the activity of Vanderbilt University Medical Center (VUMC) under programs of the federal government and of the state of Tennessee for the year ended June 30, 2020. The information in the Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance) and the State of Tennessee Audit Manual. For purposes of the Schedule, federal and state awards include all grants, contracts, and similar agreements entered into directly between VUMC and agencies and departments of the federal government and all subawards to VUMC by organizations pursuant to federal grants, contracts, and similar agreements, and agencies and departments of the Tennessee state government, including federal awards passed through by the state of Tennessee.

2. 10% De Minimis Cost Rate

VUMC did not use the de minimis cost rate.

3. Summary of Significant Accounting Policies for the Schedule

For purposes of the Schedule, expenditures for federal and state programs are recognized on the accrual basis, which is consistent with accounting principles generally accepted in the United States. Expenditures for federal and state awards of VUMC are determined using the cost accounting principles and procedures set forth in the Uniform Guidance and the State of Tennessee Audit Manual. Under these cost principles, certain expenditures are not allowable or are limited as to reimbursement. Negative amounts represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years.

4. Personal Protective Equipment (Unaudited)

VUMC received \$2,283,840 of donated personal protective equipment (PPE) from the federal stockpile for the year ended June 30, 2020, which is valued based on the fair value of the PPE at the time of donation.

Report of Independent Auditors on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance With Government Auditing Standards

Senior Management and the Board of Directors Vanderbilt University Medical Center

We have audited, in accordance with auditing standards generally accepted in the United States and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of Vanderbilt University Medical Center, which comprise the consolidated balance sheet as of June 30, 2020, and the related consolidated statements of operations, changes in net assets, and cash flows for the year then ended, and the related notes to the consolidated financial statements, and have issued our report thereon dated October 13, 2020.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Vanderbilt University Medical Center's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Vanderbilt University Medical Center's internal control. Accordingly, we do not express an opinion on the effectiveness of Vanderbilt University Medical Center's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Vanderbilt University Medical Center's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Report of Independent Auditors on Compliance With Requirements for Each Major Federal Program and Report on Internal Control Over Compliance Required by the Uniform Guidance

Senior Management and the Board of Directors Vanderbilt University Medical Center

Report on Compliance for Each Major Federal Program

We have audited Vanderbilt University Medical Center's compliance with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Compliance Supplement that could have a direct and material effect on each of Vanderbilt University Medical Center's major federal programs for the year ended June 30, 2020. Vanderbilt University Medical Center's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of Vanderbilt University Medical Center's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Vanderbilt University Medical Center's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Vanderbilt University Medical Center's compliance.

Opinion on Each Major Federal Program

In our opinion, Vanderbilt University Medical Center complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2020.

Other Matters

The results of our auditing procedures disclosed an instance of noncompliance which is required to be reported in accordance with the Uniform Guidance, and which is described in the accompanying schedule of findings and questioned costs as item 2020–001 related to the Global Aids major program over Procurement Suspension and Debarment. Our opinion on each major federal program is not modified with respect to this matter.

Vanderbilt University Medical Center's response to the noncompliance finding identified in our audit is described in the accompanying schedule of findings and questioned costs. Vanderbilt University Medical Center's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

Report on Internal Control Over Compliance

Management of Vanderbilt University Medical Center is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Vanderbilt University Medical Center's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Vanderbilt University Medical Center's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that have not been identified. We did identify a deficiency in internal control over compliance, as described in the accompanying schedule of findings and questioned costs as item 2020–001 related to the Global Aids major program over Procurement Suspension and Debarment, that we consider to be a material weakness.

Vanderbilt University Medical Center's response to the internal control over the compliance finding identified in our audit is described in the accompanying schedule of findings and questioned costs. Vanderbilt University Medical Center's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Vanderbilt University Medical Center Schedule of Findings and Questioned Costs For the Year Ended June 30, 2020

Section I—Summary of Auditor's Results

Auditee qualified as low-risk auditee?

Financial Statements Type of report the auditor issued on whether the financial statements audited were prepared in accordance with GAAP: Unmodified Internal control over financial reporting: Material weakness(es) identified? X yes Significant deficiency(ies) identified? X none reported yes Noncompliance material to financial statements noted? X no yes **Federal Awards** Internal control over major federal programs: Material weakness(es) identified? X yes no Significant deficiency(ies) identified? X none reported yes Type of auditor's report issued on compliance for major federal programs: Unmodified Any audit findings disclosed that are required to be X yes reported in accordance with 2 CFR 200.516(a)? Identification of major federal programs: **Assistance Listing numbers** Name of federal program or cluster Research & Development Cluster Various 93.067 Global Aids 93.778 Medicaid Cluster Dollar threshold used to distinguish between Type A and Type B programs: \$3,000,000

X yes

no

Vanderbilt University Medical Center Schedule of Findings and Questioned Costs For the Year Ended June 30, 2020

Section II—Financial Statement Findings

No findings reported.

Section III—Federal Award Findings and Questioned Costs

2020-001 SUSPENSION AND DEBARMENT

Federal Program Information: Federal Agency and Program Name Assistance Listing #

Global Aids 93.067

Grant Award 5 NU2 GGH001943-04-00 Grant Award 6 NU2 GGH001943-03-10

Criteria: 2 CFR 200.303 requires that a non-federal entity must "(a) establish and

maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award. These internal controls should be in compliance with guidance in "Standards for Internal Control in the Federal Government" issued by the Comptroller General of the United States and the "Internal Control Integrated Framework," issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO)."

2 CFR 200.213 states that "Non-federal entities are subject to the non-procurement debarment and suspension regulations implementing Executive Orders 12549 and 12689, 2 CFR part 180. These regulations restrict awards, subawards, and contracts with certain parties that are debarred, suspended, or otherwise excluded from or ineligible for participation in Federal assistance programs or activities."

Condition: During our testing of 40 transactions, totaling \$337,363 for suspension and

debarment of the Global Aids program, we noted that for 11 transactions,

totaling \$20,269, there was a lack of supporting documentation

demonstrating that management was monitoring the contractors to ensure they were not suspended or debarred when the purchase was made; this

was determined to be a systemic issue.

Questioned Costs: \$20,269 – Assistance Listing Number 93.067 - \$20,193 related to Grant

Award NU2 GGH001943-03-10 and \$76 related to Grant Award NU2

GGH001943-04.

Context: Total federal expenditures for the Global Aids program were \$23,253,711 of

which approximately \$6.3 million were expenditures subject to suspension

and debarment requirements for the year ended June 30, 2020.

Cause: Vanderbilt University Medical Center does not have adequately designed

internal controls and policies and procedures in place to ensure that contractors are being properly monitored for suspension and debarment.

Effect: Vanderbilt University Medical Center is not in compliance with federal

statutes, regulations, and the terms and conditions of the federal award. Federal monies may be expended to contractors who are suspended or

debarred.

Vanderbilt University Medical Center Schedule of Findings and Questioned Costs For the Year Ended June 30, 2020

Section III—Federal Award Findings and Questioned Costs (continued)

2020-001 SUSPENSION AND DEBARMENT (continued)

Recommendation: We recommend that Vanderbilt University Medical Center implement

adequate internal controls and policies and procedures to ensure that all

contractors are not suspended or debarred.

Views of Responsible

Officials:

Management concurs with the findings and has developed a plan to correct

the finding.

Summary Schedule of Prior Audit Findings

Section III - Federal Award Findings and Questioned Costs - Year Ended June 30, 2019

2019-001 - SUSPENSION AND DEBARMENT

Federal Program Information:

Federal Agency and Program Name Research and Development Cluster Special Education Cluster (IDEA) CFDA#

Various 84.027/84.173

Finding: During testing of transactions for suspension and debarment of the Research and Development Cluster, one transaction, for \$41, of the 37 transactions tested for \$2,061,516, lacked supporting documentation demonstrating that management was monitoring the contractors to ensure they were not suspended or debarred when the purchase was made; this was determined to be a systemic issue. Further, management has internal controls to assess potential suspension and debarment matches it receives from its a third-party servicer who performs suspension and debarment searches for them. However, the internal controls are not precise enough to ensure a resolution has been completed for each match identified.

Status: The corrective action plan was taken.

MANAGEMENT'S CORRECTIVE ACTION PLAN for the Year Ended June 30, 2020

2020-001

The Vanderbilt University Medical Center (VUMC) Global Aids program has controls to monitor vendors to ensure that contractors are not suspended or debarred. However, VUMC could not produce adequate documentation to evidence performance of the control. VUMC has improved the performance of this control by using a 3rd party vendor to perform the suspension and debarment testing. VUMC also adjusted its existing policy to ensure adequate supporting evidence is retained to evidence performance of the control.

Paula Yarbrough, VUMC Director – Grants and Contracts, will be responsible for implementation of the planned corrective action by fiscal year end 2021.
