IMPORTANT: COVID-19 UPDATE ON WEBSITE

Every VUMC website has a blue pop-up or banner with links to the most up-to-date COVID-19 management guidance. It is changing daily.

Faculty, staff, and trainees should refer to that website (www.vumc.org/coronavirus) for guidance related to COVID-19 questions.

-Warren S. Sandberg, MD, PhD

Removing 'Anesthesia Start' from the Preprocedure Navigator

The Anesthesia Start event will no longer be able to be documented in the Preprocedure Navigator. This is to help reduce inaccurate Anesthesia Start times. Please use Haiku to document Anesthesia Start in real-time to reflect when you have started continuous care of the patient.

The Anesthesia Start event is also listed in all Intraprocedure macros that require this time to be documented, in case you are unable to document that event in Haiku. Anesthesia Start will be the first quick event listed. You can still document Anesthesia Start at any time by using your Events button and clicking the Anesthesia Start event. If Anesthesia Start is not available for you in a macro and you believe that it should be, please submit a ticket to the Estar Perioperative Team – Optime_Anesthesia to have the issue resolved. Use the Events button to document Anesthesia Start until your macro is updated so that your patient care is not disrupted.

Add New Event

Common	Cardiac	Renal	L&D	Transplant	Neuro
Equipment Check	Patient in Room	Anesthesia Start	Start Data Collection		
Induction	Intubation	Anesthesia Ready	Procedure Start		
Procedure Finish	Extubation	Stop Data Collection	Patient Out of Room		

Blood Transfusion Dashboard

The Blood Transfusion Dashboard is currently accessible from inside the Anesthesia Blood Order.

As of **Wednesday, June 24**, the option became available to add as a tab in Patient List reports, Chart Review Snapshot and Summary Activity. See HUBBL document referenced below for instructions to locate and add report.

- This is the link to the HUBBL document: [Transfusion Dashboard Guide](#)
- The report is available in the patient list/summary activity and Chart Review under the title "Transfusion Dashboard"
- The report is also available as a link in the blood administration order set
- Allergies, blood flags, and encounter level blood consents (with hyperlink) appear
- Type/screen results show **ONLY** for the hospital that the patient is currently in (VUMC vs. VWCH)
- Transfusion-related lab results across encounters appear (last 72 hours)
- Historical antibodies for a patient appear with a stoplight system (red, yellow, green) that gives clinical decision support depending on what has resulted in that patient
- Transfusion medicine notes (inpatient AND outpatient) show in the last 90 days
- Blood volumes for that encounter appear (intake/output/net)
- Active blood orders
- Review of blood administration documentation (72 hours, 7 days, encounter, long term – especially helpful for seeing lifetime volumes)

Barcode Scanner Issues

We need your help in troubleshooting our anesthesia barcode scanners. If you are having problems scanning, please call Larry Morris with the HealthIT End User Device Team right away. To fix these issues, he needs to be able to see the device not working. He can be reached at 615-986-8490, Monday through Friday, 7:30 a.m. – 5 p.m.

Announcing the Department Faculty Mentorship Program

The Office of Faculty Affairs is pleased to announce the launch of the Department Faculty Mentorship program. We hope this program will offer interested faculty the opportunity for mentorship and career guidance. While participation is optional, we strongly encourage faculty to consider taking advantage of this resource. We anticipate the program will evolve in the coming months as we receive feedback and strive to make improvements.

The overarching structure of the program consists of Departmental hubs of scholarly/academic excellence led by hub mentors, grouped based on thematic similarities into affinity groups. Each affinity group in turn is under the leadership of a senior mentor. Our plan is for each hub mentor to have 1-3 mentees. Mentors and mentees will be expected to complete a mentorship agreement, meet regularly throughout the year, and work together to develop and track annual academic/professional goals (which will contribute to the Annual Faculty Review process).

Please visit the "Mentor Selection Survey" at <https://redcap.link/AnesMentorshipSurvey> to review the options and make your selections.

We request that you please complete your mentor selections by Tuesday, July 14, 2020, to enable us to tabulate the choices and notify mentors and mentees by Friday, July 31, 2020.

If you have any questions, please email AnesthesiologyFacultyAffairs@vumc.org or pratik.pandharipande@vumc.org.

COVID-19 Literature Search

Many faculty have expressed interest in easy access to the latest and best scientific evidence about COVID-19. The CLARITY program has developed a custom PubMed search designed to capture most of the anesthesia professional relevant evidence-based literature on COVID-19 appearing in the highest-impact general and anesthesia journals. To see our most recent weekly selections (17 entries chosen from 30 search results received on 7-01-20), use this link: [Display the 17 citations in PubMed](#). A quick read of the titles and the abstracts (click on paper title) will help you determine which articles you might like to read. To read the full text of a paper, you may need to log in to PubMed using your VUNet ID and Password. To log in initially, follow these steps:

- Click on the link provided above to see this week's article list in PubMed.
- Select "Log In" (top right corner of screen).
- Select "other log in options."
- Search Vanderbilt on the next screen or scroll down to click on Vanderbilt University and enter your VUNet ID and password

You are now logged in to PubMed. By logging in this way, you have our search selections list available to scroll through (navigating left to right), and you can access full text for each article via the library subscriptions. Note also that "similar articles" are displayed beneath each article in the list.

HI-RISE Clinic Medical Director Position

The position of Medical Director of the HI-RISE Preoperative Optimization Clinic is open. If you are interested in applying for this position, please email Matthew McEvoy, MD (matthew.d.mcevoy@vumc.org). We would like to thank Dr. Ryan Smith for his excellent service in this role over the past year.

CLARITY

Think. Check. Submit. The advent of open access publishing has made it easy for unethical "predatory" medical journals to pose as legitimate publishers. This international initiative helps researchers identify trusted journals, using a range of tools "to educate researchers, promote integrity, and build trust in credible research and publications." <https://thinkchecksubmit.org>

Take What You Need

Be sure to visit the Wellness Resource Library and "Take What You Need" menu for resources related to Connection, Calm, Services, Gratitude, Laughter, Music, Activity, Nutrition, and Sleep.

If you have a wellness resource that you would like to contribute, please submit it [here](#). Thank you!

Upcoming MOCA® Courses for 2020

CME Credit and Patient Safety Credit
Successful completion of this CME activity enables the participant to earn up to 7.5 CME credits. **This activity is eligible for Patient Safety Credit. All Patient Safety credit is awarded by American Board of Anesthesiology (ABA).** If any faculty member needs to meet the certification requirement, please select a date below that works with your schedule and register at: <https://redcap.vanderbilt.edu/surveys/?s=7FY9TGFJ>

Upcoming Dates:
Saturday, Nov. 7, 2020
Saturday, Dec. 5, 2020

The total discounted cost is \$1,525. If any questions, please contact Beverly Fletcher at (615) 936-2454 or email Beverly.Fletcher.

Grand Rounds
July 10 | 6:30 a.m. | via Zoom
<https://zoom.us/j/93504883349?pwd=OXFBSmhmOktkd1kxOG1VjUJ3OyU09>
"Do No Harm: Protect Patients, Protect Yourself and Protect the Environment"

Visiting Professor Seminar
July 9 | 3:30 p.m. – 4:30 p.m. | via Zoom
<https://zoom.us/j/96095486526?pwd=OWVWdWVXNDREFRKRXA2cHRWbnFPS0SKQTO>
"TIVA vs. Gas Debate"

Presented by
Karin L. Zuegge, MD
Associate Professor of Anesthesiology
Vice Chair for Education
University of Wisconsin – Madison
UW Health Medical Director of Sustainability
Madison, Wisconsin

All are invited. [Read more](#)

The Department of Physical Medicine & Rehabilitation presents

Grand Rounds
Thursday July 9 | 7 a.m. - 8 a.m. | Kirshner Classroom, 3rd Floor VSRH or via Zoom
"Thursdays Pain Medicine: Prediction of Opioid Analgesia and Risks"

Presented by
Stephen Bruehl, PhD
Professor of Anesthesiology
Vanderbilt University Medical Center

Please join us via ZOOM:

Employee Recognition: GEMs (Going the Extra Mile)

We want to recognize good work when we see it and encourage our colleagues to recommend our next GEM. Do you know someone who has made your day brighter or easier? Someone who has gone above and beyond? Please let us know the details so that we can recognize that person for a job well done.

Please [click here](#) to submit a GEM recommendation.

We want to hear from you!

Send your news, awards, and accomplishments - to be shared in faculty and staff meetings, *Weekly Update*, newsletters, and social media - to [Anesthesiology Communications](#).

Happy Birthday!

Department Achievements
Brad Koss has been named the CRNA Manager of Education.

Brent Dunworth, CRNA, DNP, MBA, said "I joined our CRNA team upon graduation from Middle Tennessee School of Anesthesia in 2009. Since then he has taken on a variety of leadership and education roles. He served as our Student Clinical Coordinator from 2012 – 2016 and helped kicked off our EPIC go-live planning project in the Spring of 2016. The last 2 years, he has served our state CRNA membership as the district III director of TANA. He is currently continuing his education with Middle Tennessee School of Anesthesia with an anticipated graduation from their Doctorate of Nurse Anesthesia Program in August. With his strong history of leadership and education, we know he will greatly contribute to our department's education needs well into the future."
