July 30, 2019

became pregnant again, and Jackie volunteered to come in on a Saturday (her off day), to provide anesthesia for her. Jackie took care of this patient during her stay and developed rapport. Fast forward a couple years: this patient is still an obstetric patient. She first encountered this patient a couple years ago when she was transferred to Vanderbilt after experiencing complications during her delivery. The patient's pregnancy was monitored closely, and Dr. Nicholas, who was on call that day, assured the patient that everything was going smoothly. The patient's tranquil demeanor made a lasting impression on Dr. Nicholas, who always cheers up the rest of the hospital staff, and truly cares for his patients. Behind that beautiful smile you'll find a compassionate and dedicated medical professional who always puts the patient's needs first.

Let us know the details so that we can recognize that person for a job well done. We want to recognize good work when we see it and encourage our colleagues to recommend our next GEM. Do you know someone who has been going the extra mile? Submit a nomination online at https://learningexchange.vumc.org/.../GEM.html

Fall/Spring offering of senior design in the departments of Mechanical, Biomedical, Electrical, and Computer Engineering. Dr. Matthew Walker (Biomedical Engineering) is in the process of generating a list of design projects for the Fall/Spring offering. If you are interested in proposing a project (teams may be groups of 2 to 5 students), please send problem statement scope to Matthew.walker.iii@vanderbilt.edu. Please include the name of the advisor and/or mentoring projects.

It is important to note that individuals will not be able to care for patients in operative and procedural areas after mandatory training, Timeout & Fire Safety Prevention in the OR, for all perioperative and procedural areas. You have until August 9 if training and testing is incomplete.

The Learning Management System module has been assigned to all applicable providers, residents and staff. If you have any questions, please contact the Learning Management System for training and support at vumi.training@vumc.org.

The position of Perioperative Consult Service Director is open.

Job Announcement

Dr. Matthew Walker directly: Matthew.walker.iii@vanderbilt.edu

Projects may be multidisciplinary and should involve 150 or so person-hours per student over the period between September 2019 and April 2020. If you are interested, please submit a brief description of project(s) as soon as possible.

The Multispecialty Adult Anesthesiology Fellowship program is now accepting applications for the August 1 fellowship year.

Mom, Dad and baby are doing well!

Olivia Sophia Lujan was born on Sunday, July 21, 2019 at 2:48 p.m. She was delivered by Dr. Charles Baysinger, MD, at 2:49 p.m. at VAPIR. She weighed 7 pounds 9 ounces.

John and Amanda Lujan are over the moon. It is a lot of responsibility to have a child but they are so excited to do this as a family. The grandmother, grandpa and the other grandmother are all so happy to have a new granddaughter.
