A study published this month in CLARITY identifies 5 ways to communicate more effectively with patients: (1) prepare

for each patient encounter with intention; (2) listen intently and completely; (3) seek agreement on what matters

most; (4) connect with the patient's story; and (5) explore emotional cues. To read the full study,

for each patient encounter with intention; (2) listen intently and completely; (3) seek agreement on what matters

most; (4) connect with the patient's story; and (5) explore emotional cues. To read the full study,

JAMA

The cost is $1,525. If any questions, please contact Beverly Fletcher at:
