Please let us know the details so that we can recognize that person for a job well done.

Do you know someone who has made your day brighter or easier? Someone who has gone above and beyond? Please let us know!

We want to recognize good work when we see it and encourage our colleagues to recommend our next GEM. Do you know someone who has made your day brighter or easier? Someone who has gone above and beyond? Please let us know!

Employee Recognition: GEMs (Going the Extra Mile)

John B. Sampson, MD
Director, Global Alliance of Perioperative Medicine
Department of Anesthesiology & Critical Care Medicine
Johns Hopkins University School of Medicine

It's time to start planning for 2020 summer students. Please consider assigning students to ongoing projects. However, if you do have a research project in mind that would be suitable for a summer student, please submit the CDA applications to the Development Office.

Reminder: CDA Applications

The Joint Commission visit of our stroke program was completed in November. We had one citation for not flushing anesthesia department.

We are spending on average $143,000 per year on repair costs for our equipment. This dollar amount reflects repairs that are above and beyond what our manufacturer service contracts cover.

Contact SurveyVitals - Scores and Alerts

The Development Office may follow up with the patient. Please let us know if this patient may have had an impactful or uniquely meaningful perioperative experience.

- Jon Wanderer, MD

These quality data are being periodically reviewed by our quality and safety team, led by Paul St. Jacques, MD.

As announced at the December faculty meeting, starting Wednesday, Jan. 8, the current optional requirement to use the ERAS protocol for some minor abdominal procedures will become mandatory for all major abdominal procedures.

Burn surgery will consult the periop team for pre-operative blocks and post-operative pain procedures. Burn ERAS protocol went live last week. This protocol applies to inpatients having excision and grafting procedures.

Major changes to pre-filled medication syringes are now in the OR.
