Wi-Fi is publicly available as **WECC-Public, Password: weccwireless (all lowercase)**

Davidson County Health Summit Participant Worksheet

Step 1: Reflecting on the data shared today, please write down 3 Strategic Issues that you consider high priority on the sticky notes provided. If needed, use the PEARL test to narrow down:

Step 2: Discuss your thoughts with your tablemates.

- Which issues are similar?
- How can these issues be consolidated?
- What are the outliers, if any?
- What guidance can the PEARL test provide?

PEARL Test for Strategy Issue Identification:

Propriety –Consistent with essential services and public health principles?

Economics – Financially feasible? Does it make economic sense to address the problem?

Acceptability – Will stakeholders and community accept the issue? Is it wanted?

Resources – Funding available or potentially available? Expertise? Space?

Legality – Do current laws allow implementation?

Step 3: Consolidate similar issues into up to 3 “buckets” for your table. Write issues (up to 3) on the stickies provided (1 issue / Sticky)

Electronic Voting: Using the electronic voting system, please select the top THREE (3) priorities that you think should be addressed in Davidson County.

Please use one of the options below to access the survey.

- Enter **redcap.vanderbilt.edu/surveys** into your web browser.
Survey Access Code: **MJ3EC9L4T**
- Scan this QR Code using your Smart Phone or Tablet

**Davidson County Health Summit
Table Discussions Worksheet**

Directions: Based on one of the Identified Issues work with the people at your table to answer the questions below. Use this worksheet to record notes. You will turn this worksheet/notes in to summit organizers.

Strategic Issue:

Table Host:

1.) After 3 years, what does success look like for this strategic issue?

2.) What organizations are already doing work related to this strategic issue? Who are the potential collaborators?
