# Discharge to Home WITHOUT Coronavirus (COVID-19) Testing

You were not tested for COVID-19 today because you are not showing symptoms that you are infected.

Symptoms of COVID-19 may include:

- cough

- shortness of breath

- fever.

The following may be present with these symptoms but are NOT by themselves symptoms of COVID-19:

- muscle aches

- headache

- tiredness or weakness

- runny nose

- chills

- vomiting (throwing up)

- diarrhea (loose stools).

If you develop a new cough or shortness of breath while at home, call the COVID-19 hotline at 888-312-0847 between 7 a.m. and 7 p.m.

**Go to the closest emergency department or call 911 if you:**

- have trouble breathing or are so short of breath that you can't speak a sentence without stopping to breathe

- feel so weak that you can't walk to the bathroom or care for yourself

- are confused

- have low blood pressure.

You may give this form to your employer to show that you came to the screening center but testing was not needed.
