

2002-2003 Seminar Series Speakers

Date	Speaker	Joint Sponsor	Title
09/04/02	Andrew Giraud, M.D. Western Hospital Melbourne, Australia	Dept. of Cancer Biology	Trefoil peptides as regulators of gastro-intestinal repair and tumor suppression.
11/01/02	Deborah Lang, Ph.D. University of Pennsylvania	Dept. of Neurosciences	Pax3 is required for enteric ganglia formation and functions with sox10 to modulate expression of c-ret
11/21/02	Gianrico Farrugia, M.D. Mayo Clinic	Dept. of Neurosciences	The mechanosensitive intestine in health and disease
12/06/02	Jeff Rudolph, M.D. Children's Hospital Cincinnati, OH	Dept. of Pediatrics	Protein kinase A inhibits intestinal cell apoptosis through MAP kinase activation
01/09/03	M. Peter Lance, M.D. University of Arizona	Vanderbilt Ingram Cancer Center	Prostanoid biogenesis in human colorectal fibroblasts
02/07/03	Allan Walker, M.D. Children's Hospital Boston, MA		Microbial interaction with the developing intestine: possible basis for clinical disease
03/07/03	Alan Mayer, M.D., Ph.D. Children's Hospital Boston, MA	Dept. of Pediatrics	Genetic analysis of digestive organ development using zebrafish
03/24/03	Gabriel Nunez, Ph.D. University of Michigan	Dept. of Microbiology and Immunology	Intracellular recognition of bacterial pathogens in human disease
04/04/03	Jennifer Black, Ph.D. Roswell Park Cancer Institute	Cancer Biology	Protein kinase C signaling in intestinal renewal and transformation
05/02/03	Emeran Mayer, M.D. UCLA, Los Angeles, CA	Dept .of Pediatrics and Neurosciences	Visceral nociception: a role for NMDA/receptors
06/06/03	Mark Worthington, M.D. University of Virginia		The Nup475/tristetraprolin RNA binding domain: implications for AU- rich element RNA regulation
