

## 2012-2013 Seminar Series

<b>Date</b>	<b>Speaker</b>	<b>Title/Field of Study</b>	<b>Location</b>
07/30/2012	James G. Fox, DVM Massachusetts Institute of Technology	“Of Mice and Men: The Hygiene Hypothesis Revisited”	898J Preston Research Bldg (PRB)
09/11/2012	Nicholas O. Davidson, M.D., D.Sc Washington University School of Medicine	“Genetic regulation of intestinal lipid transport: old players with new roles”	8380B Medical Center East (MCE)
09/18/2012	M. Stephen Trent, Ph.D. University of Texas, Austin	“It’s What’s on the Outside that Counts: The impact of remodeling the Gram-negative cell envelope”	898J Preston Research Bldg (PRB)
11/6/2012	Pauline Kay Lund, Ph.D. University of North Carolina at Chapel Hill	“IGF/insulin system in intestinal stem cells and normal or aberrant growth: friend or foe?”	Monroe Carell Jr. Children’s Hospital Theater
01/29/2013	Charles A. Parkos, M.D.,Ph.D. Emory University Hospital	“Pathobiology of leukocyte-epithelial interactions”	8380B Medical Center East (MCE)
3/25/2013	Bishr Omary, MD.,Ph.D. University of Michigan	“Pathophysiology of the Intermediate Filament Cytoskeleton in Digestive Organs”	898J Preston Research Building (PRB)
4/4/2013	Steven K. Grinspoon, MD Massachusetts General Hospital	“Potential Mechanisms and Treatment Strategies for Cardiovascular Disease in HIV”	A2200 Medical Center North(MCN) ID Conference Room
4/30/2013	Pankaj Jay Pasricha, M.D. All-India Institute of Medical Sciences, New Delhi	“Neurogenesis and Regeneration of the ENS-Emerging Paradigms on Enteric Neural Stem Cells”	8380B Medical Center East (MCE)
5/2/2013	Paul Kelly, M.D. University of Zambia School of Medicine, Lusaka	“Environmental Enteropathy: what is it and who cares?”	7401 Vanderbilt University Hospital (VUH)
05/14/2013	Steven R. Blanke, Ph.D. University of Illinois, Urbana	“Modulating Energy Homeostasis at the Host-Pathogen Interface: The Curious Case of Helicobacter pylori”	8380B Medical Center East (MCE)
06/04/2013	William M. Grady, M.D. University of Washington Medical School	“Deciphering the Colorectal Cancer Genome”	8380B Medical Center East (MCE)
06/11/2013	Don C. Rokey, M.D. Medical University of South Carolina	“Molecular Portal Hypertension: a Translational Approach”	8380B Medical Center East (MCE)
