

2013-2014 Seminar Series

Date	Speaker	Title/Field of Study	Location
10/08/2013	Ramnik J. Xavier, M.D., Ph.D. University of Zimbabwe	“Genetics, Genes and Pathways in IBD”	8380B Medical Center East (MCE)
11/12/2013	Thomas Ma, M.D., Ph.D. Medical College of Virginia	“Regulation of intestinal tight junction barrier: cellular and molecular mechanism of cytokine regulation”	8380B Medical Center East (MCE)
12/10/2013	Vincent Young, M.D., Ph.D. University of Michigan, Ann Arbor	“The Microbiome in Infectious and Non-infectious Colitis”	8380B Medical Center East (MCE)
01/14/2014	Richard S Blumberg, M.D. New York Hospital	“The Immunobiology of FcRn”	419 ABC Light Hall (LH)
02/25/2014	Lars Eckmann, M.D. University of Hamburg, Germany	“Caspase 8 in intestinal stress responses”	8380B Medical Center East (MCE)
04/01/2014	Helen Cox, Ph.D.** King’s College, London	“Enteroendocrine L-cell receptor mechanisms: targets with therapeutic potential”	206 PRB
04/08/2016	Patrick Tso, Ph.D University of Western Austria	“The Role of Apolipoprotein AIV on Glucose Homeostasis”	419ABCD Light Hall
05/13/2014	Ramesh Shivdasani, M.D., Ph.D. The University of Michigan	“Epigenetic and transcriptional control of intestinal crypt differentiation”	8380B Medical Center East (MCE)
06/10/2014	Frank Anania, MD,FACP,AGAF University of Pittsburgh	“Intestinal Junctional Adhesion Molecule A (JAM-A): Fatty Liver Lessons Learned)	8380B Medical Center East (MCE)
06/24/2014	C. Chris Yun, Ph.D. University of Illinois at Urbana	“LPA, a bad boy behaving well sometimes”	8380B Medical Center East (MCE)
07/08/2014	Mark Forsyth, Ph.D. University of Connecticut	“Genetic Variation and Signal Transduction as Means to Regulate Gene Transcription in Helicobacter pylori”	8380B Medical Center East (MCE)
**	Co-sponser with Molecular Physiology and Biophysics
