

Submitting a Document Correction

When viewing a scanned image and it is determined that there is an error with the document or does not meet standards, you can submit a request to have the document corrected or removed from eStar. Reasons to submit a document correction include but are not limited to: incorrectly rotated or illegible images, document associated to the wrong patient or encounter, duplicate documents in the system, incorrect Document Type, not a medical record document.

Steps To Follow

1. Identify the document which requires correction.
2. With the document open, click **Document Corrections**.

3. The Document Corrections Request eform will open.
 - a. This form allows the end user to indicate the reason for submitting the document correction request.
4. In the Requestor Information section, enter the **Requestor Name, Phone, and Email**.
 - a. This will allow for any follow up if questions arise when correcting the document.

Requestor Information

You are required to enter Requestor Name, Requestor Phone #, and Requestor Email.
