

# Vanderbilt Occupational Health Clinic

*Providing visionary health  
protection for employees*

## Prioritizing Your Health

### Urgent Care

- Receive walk-in care for minor non-work-related illnesses, including COVID-19 testing at our Faculty & Staff Express Care Clinic.

### Work Injuries & Illnesses

- Treatment for individuals who experience work-related injuries or illnesses.

### Telehealth

- Access a variety of virtual services at your convenience.

## Protecting You at Work

### Vaccinations & Injections

- Obtain a wide range of injections to protect and maintain your health.

### Occupational Exposures

- Treatment for exposure to blood/body fluids, chemicals, and other infectious diseases.

### Job-Specific Exams

- Exams to assess and protect workers who face certain health exposures or requirements.

## Providing Personal Care

### Travel Consultations

- Pre-travel consultations for non-work & work-related travel including a customized healthcare plan for your travel.

### Quit Rx Program

- Counseling and treatment services for employees eager to quit smoking.

### Ergonomics Program

- Help prevent workplace injuries and reduce discomfort through evaluations and training.
