System Requirements

This mobile app will work for both Android and iOS users.

PREREQUISITE – You must be on the VUMC Employee Network or utilizing VPN to access the Hand Hygiene Mobile App.

Adding site to Home Screen

1. **Launch Web Browser:** Launch web browser (Chrome) on your device.
2. **Enter Web Address:** Enter the following website address in the search bar:
<https://handhygiene.app.vumc.org>
3. **Enter Credentials:** You will be asked to authenticate with your VUMC ID and Password during the process:

8:59 62%

handhygiene.app.vumc.org/

5. **Add to Home Screen:**

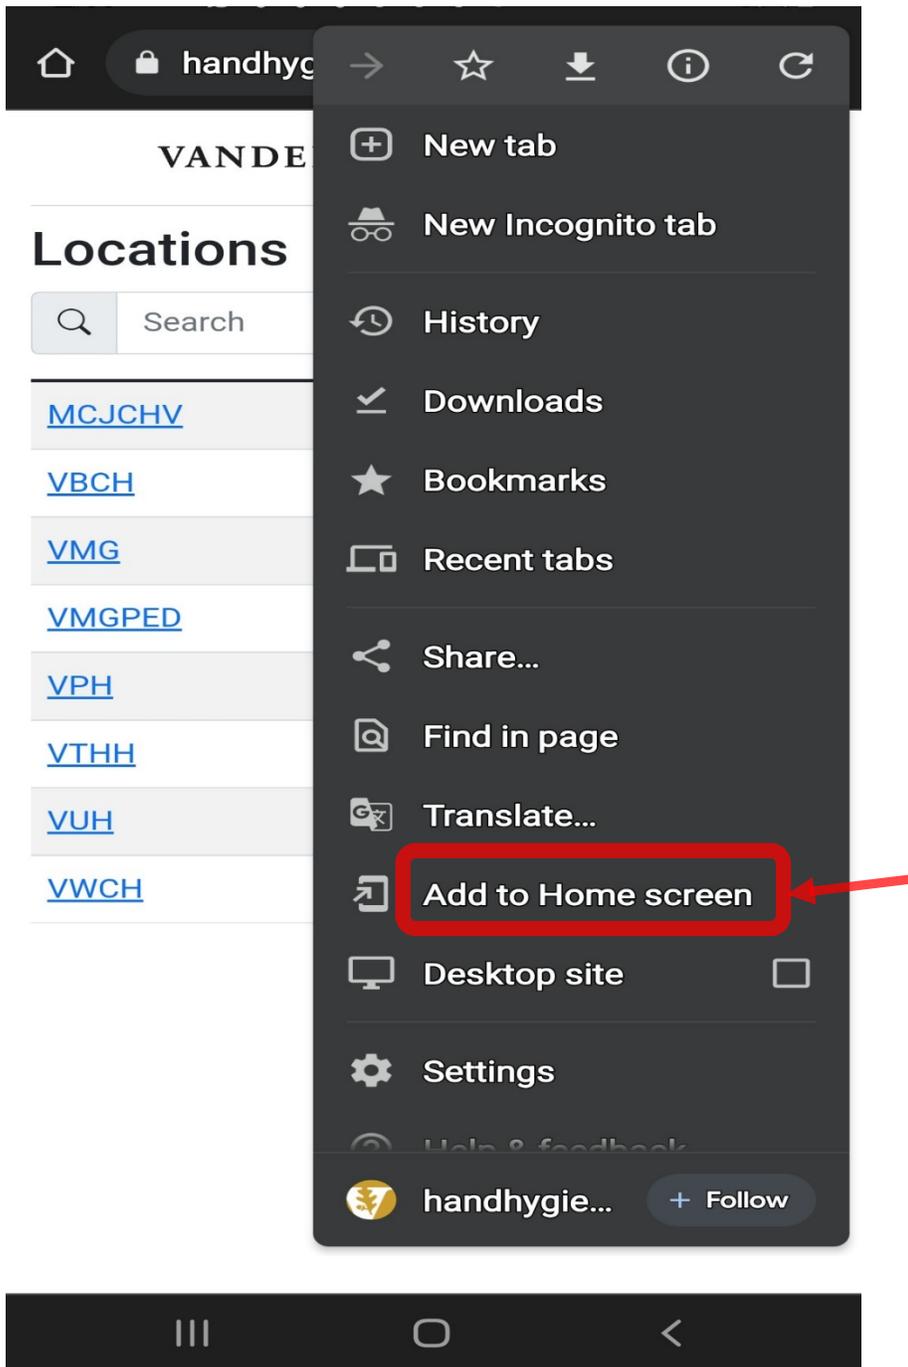

- A. Once you create your password, you will be prompted to the “Locations” screen:

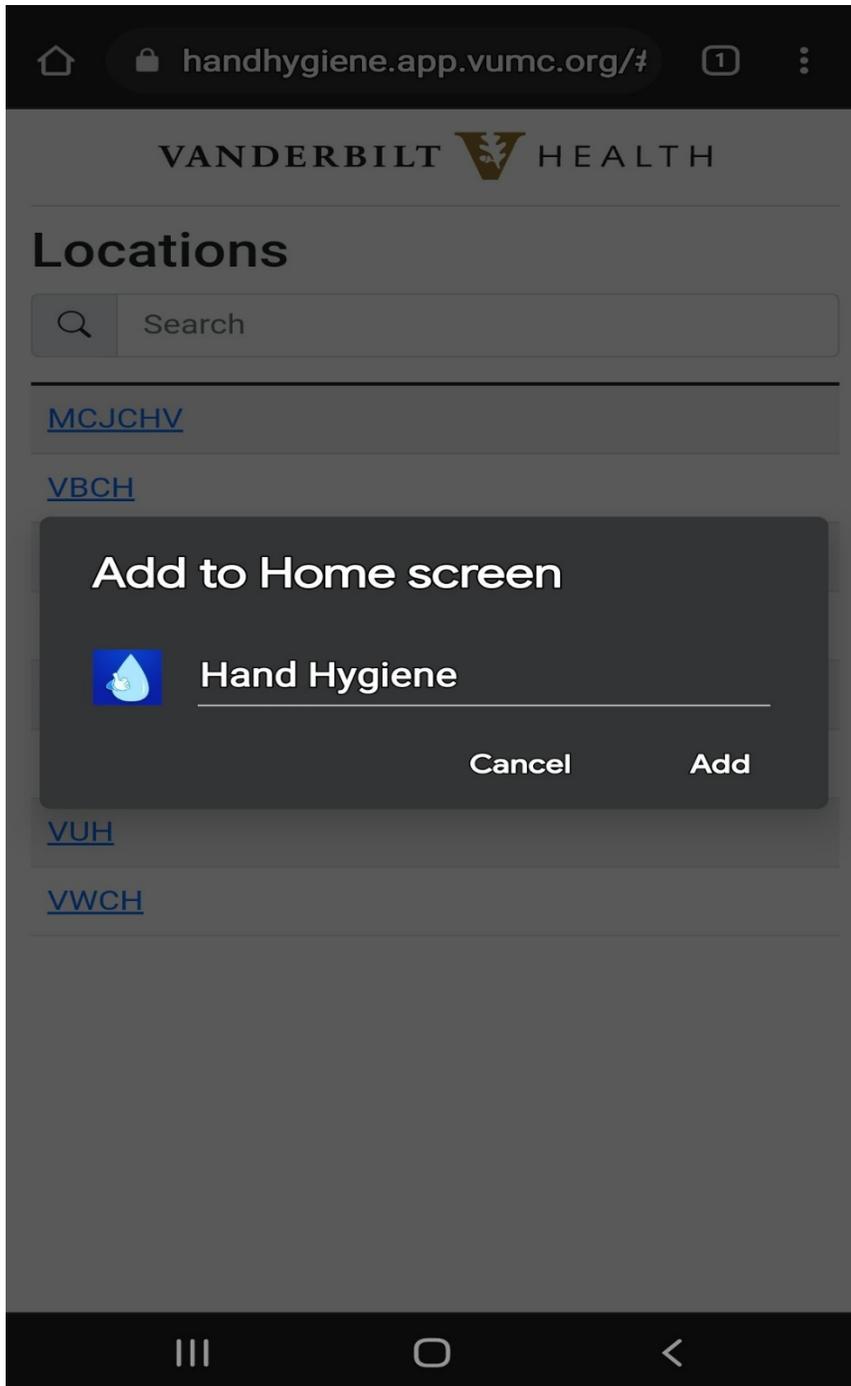

- B. Click the ellipsis (three dots) in the top right of the 'Locations' screen:

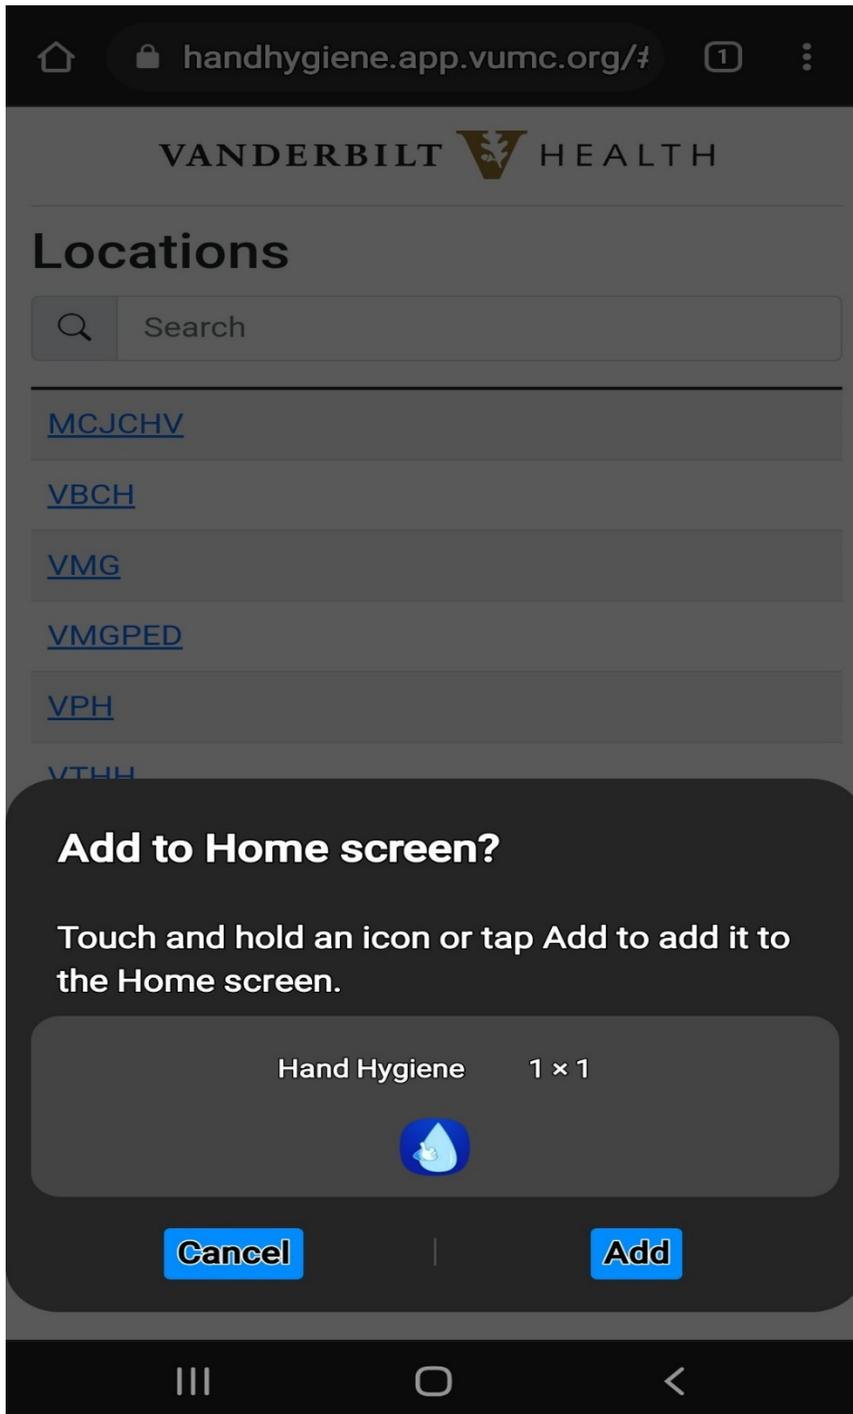

C. Once the below options appear, you can click “Add to Home Screen”:

- D. A message box will then pop up. Click “Add”.
Note that you can also change the name before clicking “Add”.

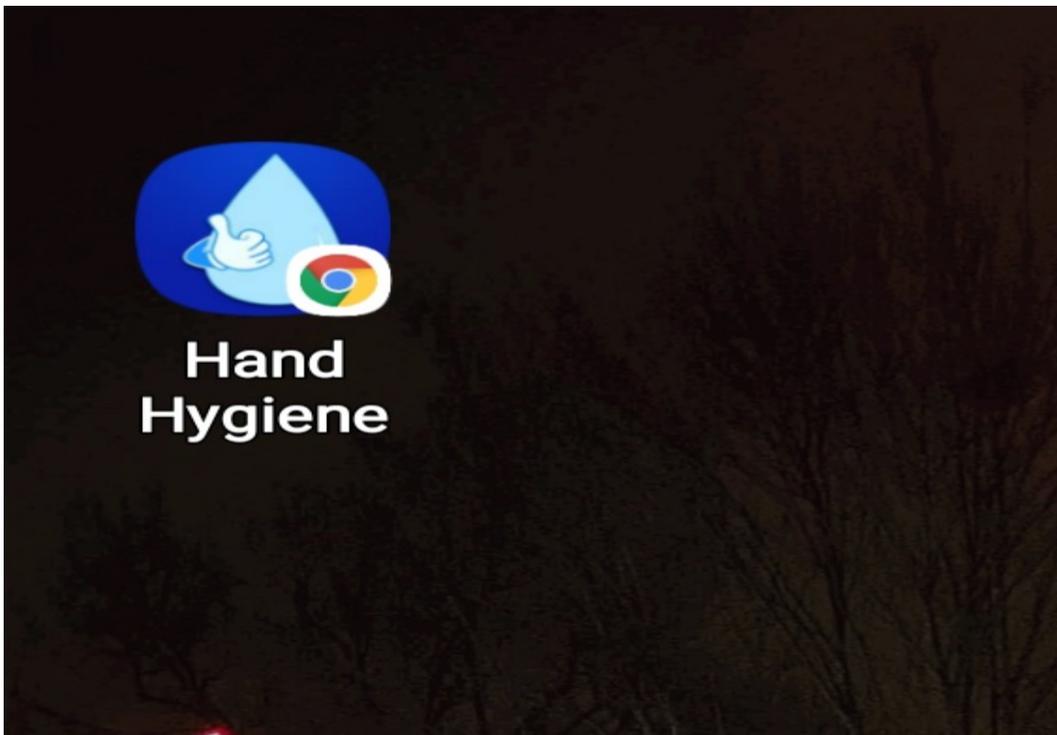

E. Another message box will appear to confirm adding to the home screen. Click “Add”.

F. A confirm message will be displayed after you click “Add”.

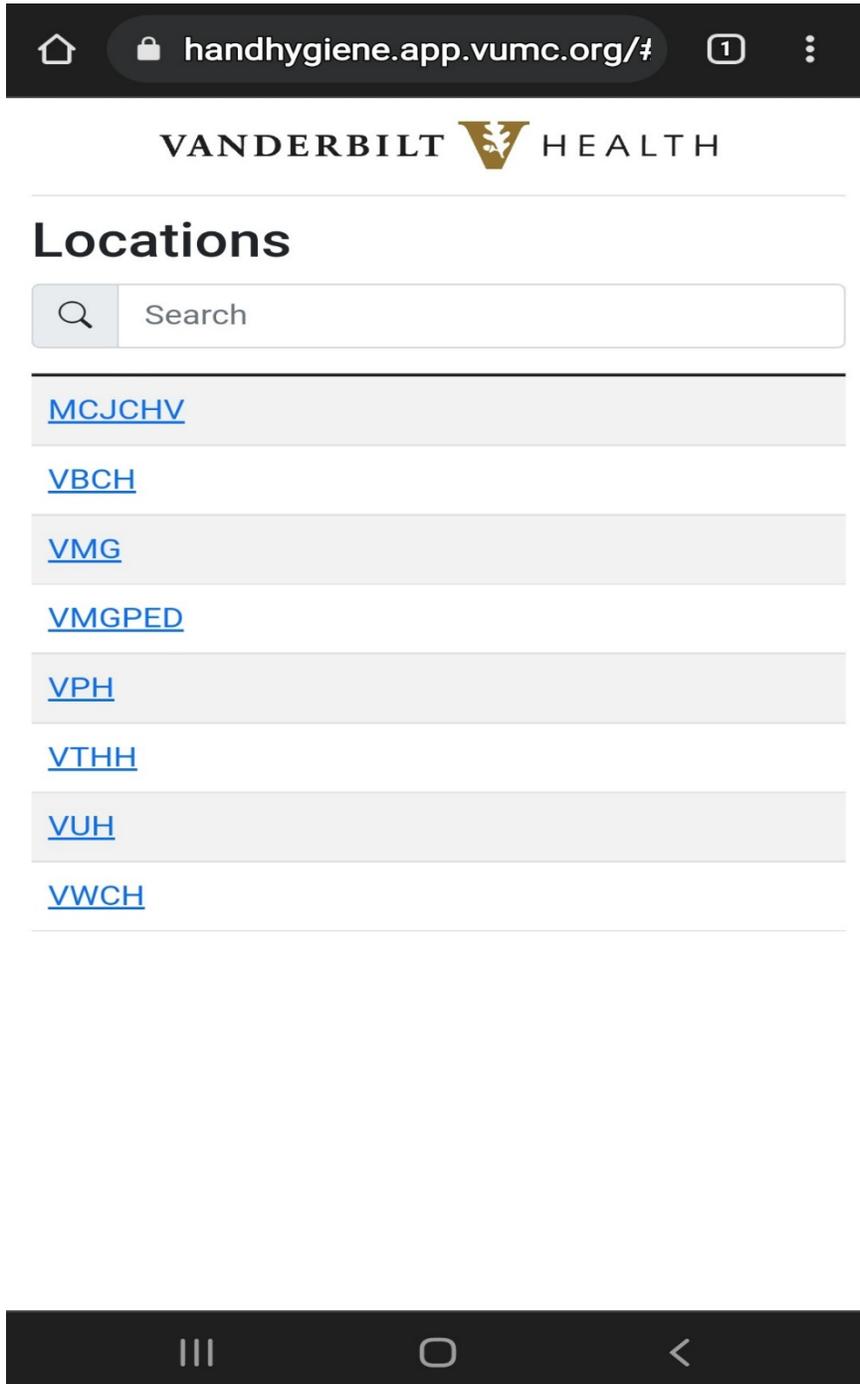

Shortcut to Hand Hygiene added on Home screen.

G. You should then see the below app icon (Hand Hygiene) on your home screen:

Observation Entry

1. Launch: Click the Hand Hygiene mobile app icon on your device home screen.
2. The “Locations” page will open. Select the location you are observing:

3. Next the “Pod” screen will appear. Select the pod you are observing:

4. Next the “Roles” screen will appear. A full listing of the roles of individuals observed will be displayed on the screen. Choose the role of the individual you are observing:

The screenshot shows a mobile browser interface. At the top, the address bar displays 'handhygiene.app.vumc.org/'. Below the address bar is the Vanderbilt Health logo. The main heading is 'Roles'. There is a search bar with a magnifying glass icon and the word 'Search'. Below the search bar is a breadcrumb trail: 'Home / VUH / VUH - 3 RW Medicine'. The main content area is a list of roles, each in a grey box with a blue link: 'Activity Coordinator', 'Aesthetician', 'Ambulance Personnel', 'Anesthesia Technician', 'Anesthesiologist', 'Any Other Resident/Intern', 'Any Other Student', 'Audiologist', 'Behavior Consultant', 'Care Partner', 'Case Manager', 'Cast Room Technician', and 'Certified Athletic Trainer'. To the right of the roles list is a vertical menu with color-coded buttons: 'All' (blue), 'Dark Blue', 'Dark Green', 'Gold', 'Light Blue', 'Light Green', 'Pink', 'Red', 'Turquoise', and 'White'.

5. You can filter the roles by the color of the badge on the right of the screen. Select the role of the individual you are observing:

6. The next screen is the “Observation” form for you to complete.

- You will select whether the observation is “Before Entry” or “Upon Exit”
- You will then select either “Hand Hygiene Performed” or “Hand Hygiene NOT Performed.”
 - If “Hand Hygiene NOT Performed” is selected, it will allow you to add “Counseling Performed”. You would select this if you performed a “cup of coffee” conversation regarding the non-compliant observation.
- There is also an option for “Contact Precautions” if the patient room is a contact precautions room.
 - If this selection is checked, there are selections for “Gown Worn” and “Gloves Worn.”
- Once you fill out the form, click the submit button.

 Gloves Worn

7. A message will pop up to confirm the record has been successfully submitted.

Key Points

1. Before submitting an observation, if you navigate to a previous screen the work will not be saved. You need to navigate back to the observation form, fill out the form and then click submit.
2. If during an observation you switch to another web browser/app (other than the Hand Hygiene Mobile App), you will be prompted to enter your password when you return to the Hand Hygiene Mobile App.
3. You must be on the VUMC Employee Network or utilizing VPN to access the Hand Hygiene Mobile App.
