

# PERSONAL PROTECTIVE EQUIPMENT (PPE)

## COVID Testing Site @ OHO

Gown

Gloves

N95 (or surgical mask at check-in area)

Face Shield

### Patient check-in area

- Wear a gown, gloves, N95 or surgical mask, and face shield.
- **Between patient check-ins:**
  - › remove gloves.
  - › perform hand hygiene using either soap and water, or alcohol-based hand sanitizer.
  - › don a new pair of gloves.

- **When leaving** your check-in station:
  - › doff and throw away gown, gloves, and mask. These cannot be reused.
  - › perform hand hygiene using either soap and water, or alcohol-based hand sanitizer.
  - › clean face shield with disinfecting wipes and allow to air dry.

### Testing area

- Wear a gown, gloves, N95, and face shield.
- **Between patients:**
  - › remove gloves.
  - › perform hand hygiene using either soap and water, or alcohol-based hand sanitizer.
  - › don a new pair of gloves.

- **When leaving** the testing area:
  - › doff and throw away gown, gloves, and mask. These cannot be reused.
  - › perform hand hygiene using either soap and water, or alcohol-based hand sanitizer.
  - › clean face shield with disinfecting wipes and allow to air dry.

### Reminders

- Gown and gloves should be doffed, thrown away and new items donned if any become contaminated or damaged.
- An N95 should be replaced if it becomes contaminated, damaged, wet, or the seal is lost.
- Clean face shield with disinfecting wipes and allow to dry if it becomes contaminated and after use.
