

Applications

WHAT is it?

Migrate all applications and related components (i.e., servers, databases, security groups, resource accounts, file shares) from all VU shared directories **to** the new **VUMC vumc.io directory**.

WHY are we doing it?

- End VUMC use of the VU shared directories
- Streamline workforce member experience and application access
- Improve VUMC security posture via modern access methods
- Improve access security by removing legacy VU shared directory artifacts like "nested groups"

Applications Details

Expectations	Timeline	Who will be impacted?	Resources
<ul style="list-style-type: none">• Will not migrate applications that have a decommission date earlier than 06/30/2023• Application migration will be a collaborative effort between system owners and ExpeditionTech teams• Application migrations will be scheduled in multiple phases based on application complexity and level of effort	<ul style="list-style-type: none">• Conducted pilots July/August 2021• 325 applications already migrated in phases I and II• Production application migration started October 2021• Phase 1 applications completed July 2022• Application owners will receive comms prior to migration begin and per selected application<ul style="list-style-type: none">• Notice of phase selection• Notice of migration kick-off	<ul style="list-style-type: none">• All VUMC applications• All VUMC workforce members	<ul style="list-style-type: none">• Application Migration Website• FAQs• Application Look Up Tool
