

Microsoft Mobile (BYOD)

WHAT is it?
 To **consolidate** strategic **vendors** while continuing to secure VUMC data on personal devices.

WHY are we doing it?

- MAM: Secures VUMC email on personal devices without full enrollment of device in MDM
- MDM: When enrolled, allows access to apps, such as Mobile Heartbeat & Power Mic Mobile on your personal device
- Provides a centralized platform for device management tools with application management

BYOD Details

Expectations	Timeline	Who will be impacted?	Resources
<ul style="list-style-type: none"> • After two pilots, this effort is being deployed by identified groups. • As a result of the MAM requirement, the Outlook mobile app will be the only way to access your VUMC email on a mobile device. 	<ul style="list-style-type: none"> • From April 20 – July 1, staggered migration of eight identified Groups • After July 1, 2021, MAM registration will be required to access VUMC Exchange from personally owned (BYOD) devices. • See full schedule here 	<ul style="list-style-type: none"> • All VUMC workforce members who want access to VUMC resources from a personal device. 	<ul style="list-style-type: none"> • Website • Registration and Enrollment • Information sheet for teams • FAQ • Rollout Schedule • Program Navigator

Next Steps: We will continue rollout of Microsoft Mobile to identified groups. Next up, are our final groups - seven and eight.
