RESEARCH EXPERIENCE

- 2011 – Pres. **Vanderbilt Sports Concussion Center (V-SCoRe), Co-Director for Research**
Mentors: Allen K. Sills, MD and Gary S. Solomon, PhD
The Vanderbilt Sports Concussion Center is the only dedicated, multidisciplinary sports concussion clinic in Tennessee. Through collaboration among orthopedists, neuropsychologists, and neurosurgeons, the center conducts research in multiple areas regarding concussion safety and improving head injury research.
- 2011 – Pres. **Vanderbilt Spinal Column Surgical Quality and Outcomes Research**
Mentors: Clinton J. Devin, MD; Matthew J. McGirt, MD
Research goals include identifying factors associated with in-patient morbidity and cost, evaluating the comparative effectiveness and cost-utility of various surgical treatments, and determining medical resource utilization, occupational and societal costs, and direct medical costs of various surgical and non-surgical spine treatments
- 2009 – 2014 **Quality Improvement Research**
Mentors: J Mocco, MD MS; Daniel J. France, PhD, Tom R. Talbot, MD MPH
Under the guidance of several mentors, conducted projects that addressed quality improvements in the operating room, including the effect of an electronic whiteboard on time-out compliance, how observer bias affects time-out compliance, risk factors for flash sterilization, and how the timeout is used in neurosurgery.
- 2008 – 2011 **Orthopaedic Trauma Research**
Mentor: William T. Obremskey, MD MPH
Conducted research projects in the areas of scapula fractures, traumatic knee dislocations, and hyperglycemia as a risk factor for surgical-site infection in critically-ill orthopaedic trauma patients.
- 2008 – 2010 **Incarceration Community Research**
Mentor: Jeff Blum, M. Div; Davidson County Sheriff's Department
Interviewed incarcerated fathers to identify how jail programming can improve the father-child relationship and rehabilitate inmates.
