

Vanderbilt-wide Limited Submission Opportunity V Foundation 2024 V Scholar Cancer Research Grant

Applications due May 15, 2024

Vanderbilt (VU + VUMC): *This is a joint competition for VU and VUMC investigators. All investigators should follow these instructions.*

Vanderbilt (VU + VUMC, collaboratively) may nominate **up to two candidates** for the [V Foundation V Scholar Award](#) program. The V Foundation aims to “achieve victory over cancer” in part by funding cancer research grants. The V Scholar Award supports **early career faculty in cancer research** by funding either laboratory-based fundamental research or translational research projects.

This call is specifically for **adult cancer research**. Research on **ANY adult cancer type** will be funded in this call. This year the V Foundation has a special interest and funding for colorectal cancer and welcomes proposals in this area, but this is not required. Areas **not** included in this scope are epidemiology, behavioral science, and health services research. The foundation especially encourages applications from minority racial or ethnic groups underrepresented in science, including Blacks or African Americans, Hispanics or Latinos (non-European), American Indians, Alaskan Natives, Native Hawaiians, and other Pacific Islanders.

This **\$600,000 grant** is paid in three annual installments of \$200,000 and **does not cover indirect costs**.

Eligibility:

This call for applications is specifically for adult cancer research focused on laboratory-based fundamental research or translational research. Additionally, by May 29, 2024, all of the following must apply:

- Have been **appointed to their first full-time, tenure-track, assistant professor position within the last 5 years**, and not yet been promoted to Associate Professor.
- **Clinical scientists are eligible** if their Department can demonstrate that it will fully support the research applicant (e.g., dedicated lab space, start-up funds, dedicated research time).
- Applicants must have at least 2 years post-doctoral (MD or PhD) fellowship training. For MDs, a minimum of one year is acceptable if only one year is required for the specialty.
- Applicants must be either US Citizens or permanent legal residents in the US.
- Applicants **must NOT**:
 - have accepted or received notification of an R01 award by the nomination due date.
 - have accepted or received award notification of any peer-reviewed, non-mentored single grant that totals or exceeds \$750K in total direct funding at any point in their professional career. This calculation should exclude indirect costs.
 - have accepted or received award notification of any peer-reviewed, non-mentored funding that exceeds \$1M in aggregated total direct funding at ANY point in their professional career. This calculation should exclude indirect costs.
 - *NOTE: The V Scholar award is intended to support research to leverage these larger awards; so, the nominee should not have already received such awards.*

View the [2024 V Scholar Eligibility: Are they Eligible](#) handout for additional guidance.

Internal Selection Process:

Anyone interested in being considered as Vanderbilt's nominee must submit the following (in a single PDF) to LSO@vanderbilt.edu by **5 p.m. on May 15, 2024.**

1. Brief (2 page maximum) research plan including summary budget;
2. Letter of support from department chair/center director;
 - a. Letters must acknowledge that this grant does not allow indirect costs. This statement can be used/modified within the letter: "The Department recognizes that this grant does not allow indirect costs and will commit to covering any associated indirect costs per applicable institutional/school policy." Consult LSO@vanderbilt.edu for further guidance.
 - b. If the nature of the research is bench to bedside with patient contact, briefly describe how patient advocacy/communication will be incorporated into your training.
 - c. If the nature of the research is basic and/or translational science, briefly describe how will science communication with diverse audiences be incorporated into your training.
3. NIH Biosketch or 5-page CV.
4. Financial Worksheet (download template [here](#))
 - a. Please fill out the Grant Awards table and any "Notes and Remarks." Other information and signatures not required for the internal selection process.

Submissions should reference "2024 V Scholar Award" in the subject line of the email. **Note that the selected candidate will need to prepare a brief nomination form and draft a VICC Director letter of recommendation by May 22.**

Please contact us at LSO@vanderbilt.edu if you have any questions about the program, foundation, or internal review process.
