

Transition Update: VU/ VUMC Cost Centers

As part of the VU - VUMC transition process, cost center numbers for VU cores have been changed, effective with new transactions dated November 1 or later. This change applies only to the basic science core facilities that will remain with VU after the transition.

VUMC Finance and OOR, VU Finance and OCGA, VUIT, HR and Procurement/Disbursements have worked together to make these changes as smooth as possible.

- Cost centers have been systematically updated in CORES.
- PAF (effort) distributions and eligible purchase orders have been systematically updated with the new cost centers.
- Existing privileges for using and reporting have been cloned from the current cost centers to the new ones.
- Appropriate accounts and standing entries have been activated on the new cost centers.
- Central offices made the initial transfer of existing account balances from the old centers to the new centers after October close, during the month of November. Therefore you may see some flux in your accounts on the general ledger throughout the month of November. Administrators: Please wait to make any correcting entries for transactions that hit the old centers until these initial transfers have been completed.

Core Name	Current Cost Ctr	New VU Ctr	Current Equipment Depreciation Ctr	New VU Equipment Depreciation Ctr	VU/ VUMC Assignment
VANTAGE	3040628000	n/a	8040628051	n/a	VUMC
