Do you or your child have cataracts in both eyes?

If so, you might be interested in a voluntary research study of people who have cataracts in both eyes at a young age.

This study involves no medication.

You or your child may be eligible to participate if:

- You have cataracts in both eyes
- You have no known cause for your cataracts
- You were between the ages of 2 and 21 at the time the cataracts were diagnosed
