

Monroe Carell Jr. Children's Hospital at Vanderbilt Pediatric Surgery Residency Training Program

L-R: Dr. O'Neill, Dr. Morgan, Dr. Zamora, Dr. Fusco (back), Dr. Danko, Ann Ramsey (APP), Dr. Upperman (back), Dr. Stafman (fellow), Monica Milovancev (APP), Melissa Matthews (APP), Dr. Olson (fellow), Dr. Lovvorn, Dr. Blakely

Message from the Program Director

The Vanderbilt Pediatric Surgery Residency seeks exceptional candidates from a diverse background who are eager to pursue a career in academic Pediatric Surgery and to make unique and life-long contributions to our specialty. The Department of Pediatric Surgery promotes excellence in the comprehensive surgical care of children. Our highly-accomplished group of pediatric surgeons is committed to the practice and teaching of excellence in clinical care and to the discovery of innovative therapies through clinical outcomes and basic laboratory research. The education of Pediatric Surgery residents and categorical Surgery residents is fundamental to our mission. We also cherish teaching undergraduates, medical students, and nursing students on the wonders of Pediatric Surgery. Our nationally renowned Department of Pediatric Surgery and comprehensive hospital offer a stimulating environment and opportunity for the clinical and investigative training of academic Pediatric Surgeons. Our Pediatric Surgery residents develop a unique expertise in the clinical approach to the surgical problems of childhood, as well as a critical and analytical approach to the evidence-based practice of Pediatric Surgery.

The resident finishing the Pediatric Surgery Residency at Vanderbilt will be competent in the full spectrum of this broad specialty. Our faculty perform the full scope of Pediatric Surgical procedures, from routine to the most complex, and among all ages through early adulthood.

The Vanderbilt Department of Pediatric Surgery is historically one of the most well-rounded academic groups nationwide and produces a high volume of impactful manuscripts and scientific presentations annually. Our Department also has a strong history of securing extramural NIH funding. The Pediatric Surgery resident is encouraged to participate in any research endeavor s/he wishes during fellowship. Support for Pediatric Surgery resident-initiated research and travel to meetings is available

through several resources (see research opportunities on back). The Pediatric Surgery resident at Vanderbilt should consider themselves an ambassador for our service and an advocate for the sick child, and in this role, to recruit top medical students into Surgery and Surgery residents into Pediatric Surgery. For the Pediatric Surgery resident interested in International Humanitarian work, the opportunity to rotate through Bethany Kids Hospital in Kijabe, Kenya during this two-year fellowship is available.

Altogether, our Department of Pediatric Surgery is comprised of diverse faculty who study unique aspects of our precious specialty, which makes training at the Monroe Carell Jr. Children's Hospital at Vanderbilt special. The finishing resident is truly prepared for any career trajectory in Pediatric Surgery!

Message from the Chair of the Department of Pediatric Surgery

The Department of Pediatric Surgery at Vanderbilt operates within one of the largest, most respected, and fastest growing medical centers in the country. Our department serves one of the largest free-standing children's hospitals in the country, the Monroe Carell Jr. Children's Hospital at Vanderbilt. Our hospital faculty surgeons, nurses, and staff provide care designed specifically for the needs of children and their families. Patients originate from the entire state of Tennessee, Kentucky, Alabama, and Virginia.

The Department of Pediatric Surgery is committed to providing and promoting excellence in surgical care. Our surgeons and nurses are specially trained to treat fetal patients, newborns, infants, toddlers, children and young adults.

We perform the full scope of Pediatric Surgery procedures at two campuses, with the inpatient volume exclusively at Monroe Carell while the outpatient procedures are shared with a new, state-of-the-art ambulatory surgery center in nearby Murfreesboro, TN.

Jeffrey Upperman, MD
Professor and Chair, Department of Pediatric Surgery
Surgeon-in-Chief, Monroe Carell Jr. Children's Hospital at Vanderbilt

Meet the Faculty

Vanderbilt Department of Pediatric Surgery - Our Mission -

Our mission is to provide and promote excellence in the surgical care of children. This comprehensive care extends from fetal patients to young adults. Our unified group commitment to excellence includes clinical care, both clinical and laboratory research, and the education of students, nurses, residents and fellows.

BEST CHILDREN'S HOSPITALS

U.S. News

RANKED IN 10 SPECIALTIES 2022-23

Monroe Carell Jr. Children's Hospital at Vanderbilt by the Numbers

Vanderbilt is a Level 1 Trauma Center

Vanderbilt Lifeflight air and ground medical transportation services complete an annual 7,402 adult and pediatric transports

Vanderbilt Children's Hospital by the Numbers

- Total Inpatient Beds: 343
- Emergency Department Rooms: 42 (including 2 trauma bays and 7 fast track bays)
- Operating Rooms: 18 (onsite)
- Inpatient Discharges: 16,232
- Clinic Visits: 360,314
- ER Visits: 47,446
- The only Level 1-designated Trauma Unit and dedicated Burn Unit in the region
- The only Level 4-designated Neonatal Intensive Care Unit in the region
- More than 400 physicians trained in 30 pediatric and surgical specialties
- 10th Floor Expansion opened in June 2019 (Pediatric Heart Institute - 38 beds)
- 11th Floor Expansion opened in March 2020 (NICU, Cardiology and Transplant - 38 beds)

Other expansions

- 2020 opened Postpartum/NICU unit opening
- 2021 New Cath Lab coming
- The total footprint will be approximately 1 million square feet with 12 floors after the expansion of the four new floors

Research Opportunities

- Pediatric Surgery clinical research programs offer a vast and diverse exposure to pediatric surgical research. The topics are broad and open to the resident and include:
- ongoing prospective clinical studies evaluating surgical treatments for common conditions such as Hernia Repair and Necrotizing Enterocolitis in infants
 - biomedical informatics to enhance online patient care portal for optimal communication
 - Wilms tumor, or nephroblastoma, a common renal malignancy of the embryonic kidney and how racial disparities affect the treatment and outcomes.
 - assessment of Body Composition in Children with Cancer or while on ECMO
 - truly any topic in Pediatric Surgery

Residents and Program Directors of the Department of Pediatric Surgery

Resident graduate gallery from L to R 2007 to 2021

Former Pediatric Surgery Residents:

- 2007-09, Barry R. Berch - University of Mississippi Medical Center
 - 2008-10, Joshua B. Glenn - Navicent Health Children’s Hospital and Mercer University School of Medicine
 - 2009-11, Thomas P. Rauth - Tristar Centennial Medical Center
 - 2010-12, Colin A. Martin - University of Alabama School of Medicine, Children’s Hospital of Alabama
 - 2011-13, Nathan M. Novotny - Beaumont Children’s, Oakland University
 - 2012-14, Melissa E. Danko - Monroe Carell Jr. Children’s Hospital at Vanderbilt University Medical Center
 - 2013-15, Brian T. Bucher - University of Utah School of Medicine, Children’s Hospital
 - 2014-16, Syamal Dave Bhattacharya - Children’s Hospital at Erlanger, University of Tennessee
 - 2015-17, Adam S. Brinkman - University of Wisconsin School of Medicine, Children’s Hospital
 - 2016-18, Kyle Van Arendonk - Children’s Hospital of Wisconsin, Medical College of Wisconsin
 - 2017-19, Margaret Gallagher - Monroe Carrell Jr., Children’s Hospital and Fort Campbell Medical Center
 - 2018-20, Lauren A. Gillory - UT Southwestern Medical Center
 - 2019-21, Laura Y. Martin - NYU Langone Health
 - 2020-22, Jacob K. Olson - Riley Children’s Hospital, Indiana ersity
- Current Pediatric Surgery Residents:**
- 2021-23, Laura Stafman - Chief Pediatric Surgery Resident
 - 2022-24, Maren Shipe - Junior Pediatric Surgery Resident
 - 2023-25, Roshan D’Cruz- Incoming Pediatric Surgery Resident

Program Directors

- 2007-11, Wallace “Skip” W. Neblett, Jr.
- 2011-18, Dai H. Chung
- 2018 - present Harold “Bo” N. Lovvorn, III

Pediatric Surgery Educational Curriculum and Conference Schedule

The Pediatric Surgery educational curriculum at Vanderbilt includes multidisciplinary conferences held from 07:00-09:00 each Wednesday, as well as a case-based Didactic Seminar held on the third Thursday of each month. The multidisciplinary conferences are conducted on specified days of the month with Pediatric Radiology, Pediatric Pathology, Pediatric Gastroenterology, Pediatric Emergency Medicine, and Pediatric Trauma. Other conferences include a Department Morbidity and

Dr. Lovvorn fist-bumps with Surgery resident Lexie Vaughn

Mortality review and then a quarterly presentation at the Section of Surgical Sciences M&M. Pediatric Surgery Grand Rounds and Journal Club are also held in this 2-hour block on recurring Wednesdays. We also participate in a monthly teleconference solid tumor board with St. Jude Children’s Research Hospital, Memphis, TN and Prince’s Maxima, Utrecht, Netherlands to share and discuss complex and challenging cancer cases.

Diversity, Equity, and Inclusion

Vanderbilt Pediatric Surgery fully endorses and is committed to growing diversity within our precious specialty. We pledge to increase diversity, emphasize equity, and promote an inclusive culture within the pipeline of learners pursuing or considering Pediatric Surgery. Partnering with the Office of Diversity Affairs, our Department has participated in numerous exercises to mitigate bias when considering applicants to Pediatric Surgery.

We deeply value applicants who derive from unique backgrounds and aspire to exceptional careers. Our Department seeks to train Pediatric Surgeons from all races, ethnicities, genders and self-identity, sexual orientation, disabilities, geographic origins, and socioeconomic status.

PRIDE

AAERG Black History Month Kick-Off Skate Party
If you have a shirt with Positive Black Affirmations, please wear. Admission is \$7 and skate rentals are \$4. Join us as we kick-off a month-long celebration of black excellence!
• **Date:** February 5, 2023
• **Time:** 8:00 p.m. – 11:30 p.m.
• **Location:** Rivergate Skate Center

Meet and Greet with Black Leaders
The AAERG will be hosting a meet and greet for its members and leadership. This event will focus on Black Leadership and excellence within VUMC. There will also be a HR Leader present to speak to the resources and tools available for employees to obtain their career goals. There will be time allotted for questions from the members at the end.
• **Date:** Monday, February 20th – In person
• **Time:** 5:00pm – 6:00pm
• **Location:** Light Hall Room 214

Office of Diversity and Inclusion Chat Room
The Office of Diversity & Inclusion launched a monthly gathering called, The Chat Room Series, last fall with the goal of facilitating spaces for educational enrichment, critical thinking, and self-development in a communal setting. They have received a lot of positive feedback and are excited to continue the series this year. In 2023, their overall theme is going to center around healing, specifically highlighting how we can heal in community spaces, such as our ERG groups. They believe the ERG groups bring significant value to VUMC and want to highlight the communal value they bring to the organization.
• **Date:** February 15, 2023
• **Time:** Session #1 – 7am – 8am
Session #2 – 12pm – 1pm
• **Location:** Virtual

For additional information, please visit: [Vanderbilt School Medicine Diversity Website](#), and [Section of Surgical Sciences Diversity and Inclusion Website](#).

Annual Endowed Holcomb Lecture

The George W. Holcomb, Jr. Lecture in Pediatric Surgery is presented by the Department of Pediatric Surgery in honor of George W. Holcomb, Jr., Clinical Professor of Surgery, Emeritus (June 19th, 1922 – June 29th, 2019).

Dr. Holcomb served as resident in Surgery at Vanderbilt from 1946 to 1949 and subsequently completed his training in Pediatric Surgery at Boston Children's Hospital in 1952

This named lecture attracts sought after nationally renowned surgeons and surgeon scientists who consistently present inno-vative, cutting-edge procedures, methods and theory to surgical faculty and trainees.

Past Holcomb Guest Lecturers

- 1990 - Judson G. Randolph, MD
- 1991 - James A. O'Neill, Jr., MD

Wallace W. Neblett, III, MD
Professor of Pediatric Surgery, Emeritus

Dr. Neblett joined the Vanderbilt Faculty in 1980 as a Clinical Instructor in Surgery. Just four years later he accepted the appointment as Chair of the Department of Pediatric Surgery, a position held for the next 27 years. In 2011 he stepped down from his duties as Chair of the Department and Program Director of Fellowship Training but continued to practice pediatric surgery. He has dedicated 42 years to caring for sick children at Vanderbilt, supporting families, and teaching surgical residents.

Vanderbilt has a rich history in Pediatric Surgical training since 1925.
Today, we are a children's hospital ranked in all 10 disciplines evaluated by
U.S. News & World Report and attracts top-flight pediatric surgical resident candidates.

Residency training in pediatric surgical diseases at Vanderbilt has its origins dating back to 1925. The first patient evaluated in the newly opened Vanderbilt University Hospital emergency department (1925) was a child presenting with advanced appendicitis. Operative logs show that Barney Brooks, the first Chair of Surgery at Vanderbilt, and Alfred Blalock, his first Chief Resident, managed that child and the bulk of pediatric surgical conditions in that era.

Other giants in American Surgery while faculty at Vanderbilt also made original and significant contributions to Pediatric Surgery before board approval as its own specialty. Specifically, Rollin A. Daniel, Jr. reported in *Annals of Surgery* (1944) his first successful primary repair of esophageal atresia and tracheoesophageal fistula (EATEF) in a newborn. However, Cameron Haight of Ann Arbor, MI had reported a month earlier in *Annals* his successful repair of EATEF, preferring a left thoracotomy. Although these cases occurred independently and almost simultaneously in date, Haight was credited historically with this coincidental accomplishment, yet Daniel would popularize the right chest, retropleural approach. Similarly, James A. Kirtley, Jr. published the first successful portoenterostomy for the "uncorrectable" form of biliary atresia in the *American Surgeon* (1954) 5 years ahead of

Morio Kasai's description. Remarkably, Kirtley's patient lived 39 years with her native liver, bearing 3 children, before dying during an attempt at liver transplantation.

H. William Scott, Jr., Chair of Surgery from 1952-1982, performed the first successful, complete repair of tetralogy of fallot in 1955. Scott had received three years of pediatric surgical training under Drs. Ladd and Gross at Boston Children's Hospital, which set the stage for sustained emphasis in the surgical care of children at Vanderbilt and nationally across his illustrious career.

Dr. Scott influenced many Surgery residents at Vanderbilt to pursue Pediatric Surgery, including such titans as James A. O'Neill, Jr. and Wallace W. Neblett, Jr., who with George Holcomb, Jr. (also a trainee of Drs. Ladd and Gross) grew the Department of Pediatric Surgery. With this esteemed foundation and history, Lovvorn, O'Neill, and Neblett established in 2007 a comprehensive residency training program in Pediatric Surgery.
