Fees are subject to change without notice.

- A Represents average costs.
- B Criminal background checks and drug screens are requirements for attending clinical sites. Based on the results of the criminal background check and drug screen results, the clinical site may refuse to allow your presence at their facility. This could result in your inability to successfully complete the requirements of a clinical anesthesia technology course, and therefore, would not be able to meet the requirements of the nursing program. More information is available from the Anesthesia Technology Program Director.
- C Transportation to and from clinical agencies including parking fees will be the responsibility of the student. Travel to clinical facilities outside the campus/center area will be required. Columbia State does not assume liability for personal injury or property damage incurred while on route to and from these facilities and while in these facilities.
