

# VUH (Adult) Bed Selection Guidelines

If patient width prevents turning:  
utilize weight >400# selections

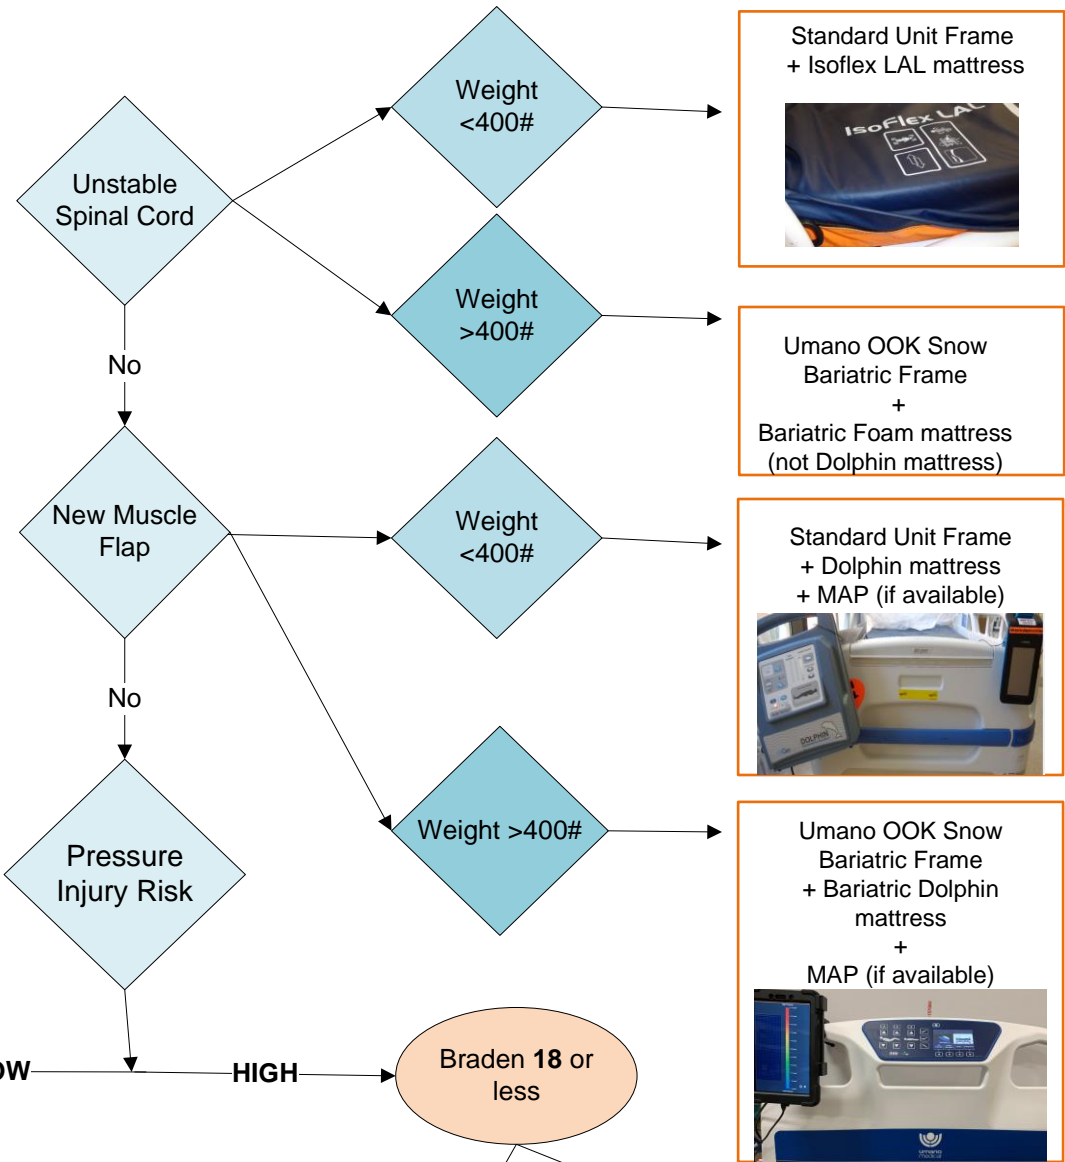

Reference Mosby's/Elsevier for  
Rotoprone bed  
("pronation therapy")

Document specialty frame/mattress  
used

To obtain bed extender, call Service  
Center #39600 ("Equipment" will install)

For mattress or bed frame  
malfunctions:  
Stryker: contact EVS  
Specialty beds/mattresses: contact  
Service Center #39600 and request  
they contact "Equipment".

Please speak to your unit's Skin  
Champion(s) or staffing leader if you  
have questions regarding the Bed  
Selection Guidelines. For additional  
questions not outlined in the Bed  
Selection Guidelines or consideration  
of a specialty bed/mattress outside of  
the guidelines, contact the Adult  
Wound Team via eStar text paging.

Standard Unit Frame/  
Mattress
