

**Assistant or Associate Professor and Veterinary Pathologist, Division of Comparative Medicine, Vanderbilt University Medical Center**

**Position.** The Vanderbilt University Medical Center Animal Care and Use Program is currently seeking a motivated individual for a faculty position of Veterinary Pathologist. The faculty appointment will be on the Basic Science/Clinician Educator (non-tenure) track in the Department of Pathology, Microbiology, and Immunology/Division of Comparative Medicine (DCM) in Vanderbilt University's School of Medicine. Responsibilities will include: diagnostic pathology services for a large and diverse population of animal species (the majority of which are rodents), participation in collaborative research to support Vanderbilt faculty working with animal models, supervision of animal health monitoring programs, teaching and mentoring as part of the DCM Laboratory Animal Medicine Residency Program and Vanderbilt University Graduate School, design and implementation of standard operating procedures for the Translational Pathology Shared Resource lab, and formal and informal training of animal care and research staff.

**Vanderbilt University Medical Center (VUMC).** Located in Nashville, Tennessee, VUMC is a premier research institution internationally recognized for its leadership and innovation in the biomedical and biological sciences. In 2020, VUMC was awarded 531 NIH grants totaling \$378 million in funding. VUMC's animal care program collaborates with approximately 420 Principal Investigators working on over 640 IACUC-approved protocols, is registered with the USDA, and has been an AAALAC International accredited facility since 1967. The successful applicant will join a board-certified veterinary pathologist and a team of five faculty clinical veterinarians who oversee the health and welfare of over 20 species of animals with an average daily census of over 100,000.

**Required Qualifications:**

- DVM/VMD degree from an AVMA accredited school, or a certificate issued by the AVMA's Education Commission for Foreign Veterinary Graduates, and have passed the North American Veterinary Licensing Exam (NAVLE)
- Veterinary license to practice in at least one state in the U.S.
- Board certified by the American College of Veterinary Pathologists (ACVP) or the European College of Veterinary Clinical Pathology (ECVCP) or be eligible for the ACVP/ECVCP certifying examination at time of appointment. ACVP/ECVCP-eligible applicants are expected to obtain certification within four years of hire.
- Excellent communication skills

**Preferred Qualifications:**

- Ph.D. degree
- Experience in rodent pathobiology and comparative pathology of animal models of human disease
- Teaching experience
- Collaborative research experience

Salary is commensurate with qualifications and experience.

Applicants should submit a letter of interest, Curriculum Vitae, and the names and addresses of three references.

*Vanderbilt University Medical Center is an Affirmative Action/Equal Opportunity employer.*
