Vanderbilt University Medical Center

Academic Chief of Gynecologic Pathology

The Department of Pathology, Microbiology, and Immunology at Vanderbilt University Medical Center seeks a board certified academic surgical pathologist with subspecialty gynecologic pathology fellowship training for **Chief of Gynecologic Pathology**. General surgical pathology fellowship training is also desirable. The section of Gynecologic Pathology in the Division of Anatomic Pathology currently includes four faculty members and evaluates approximately 6,000 total GYN cases including 4,000 biopsies, 1,750 routines/biggs, and 250 consults/referrals annually. Candidates need to be eligible for medical licensure in the state of Tennessee and, depending on qualifications and experience, should be eligible for appointment as an Associate or Full Professor on the Clinician Educator track.

The Department has a strong and diverse faculty with excellent training programs and a supportive atmosphere. These make it an exceptional place to thrive as an academic, subspecialty surgical pathologist. The successful candidate is expected to be productive and dynamic with strong communication skills and a commitment to excellent patient care. Interest in multi-disciplinary research and mentorship of junior colleagues is highly desirable.

Located in the heart of Nashville, Tennessee, Vanderbilt University Medical Center (1,019 beds) is one of the nation's leading research and teaching institutions with undergraduate medical programs contiguous on the same campus. VUMC is experiencing expansion in many areas with a top 20 cancer center, multifaceted organ and stem cell transplant programs, expanding educational programs, and myriad opportunities for clinical, translational, and basic science research. Nashville, the capital of Tennessee, is a growing and vibrant cosmopolitan area with a population exceeding 1 million, diverse entertainment, excellent schools, and ready access to outdoor activities.
