

Cath lab/EP/IR—Checking for CDUI Errors

Unresolved errors in CDUI documentation will prevent data from flowing into Epic. All errors should be resolved before the end of each day to prevent lost revenue. This tip sheet explains how to find cases with errors in Tecsys.

1. After logging onto Tecsys, click on **Cases**.
2. Select the date you wish to look at and type in your unit number(s). Click **Search** in the bottom left corner.

Note: If you want to add multiple units, put a semicolon in between the numbers like this: 101000135; 101000112; 101000158. **See last page for a list of unit numbers.**

3. Scroll to the far right of the search results to view the Notes column. Any cases that have an icon showing in this column have a CDUI error that needs to be addressed. The icon will disappear once the error is resolved.
4. (*not shown*) Open the case in Epic and launch the CDUI to correct errors.

Description 1 (Procedures)	Procedure Date	Unit	Room	Shortages	Lines	Hold	Packing List	Created On	Modified On	EMR Event Code	Notes
RH RHC (NORMAL HEART)	03/10/2023 17:23	101700117	VTHH CC PROC RM 01		11*	No		03/08/2023 17:17:43	03/21/2023 14:01:42	3 - SIUS14	
RAD CT GUIDED LIVER BIOPSY	03/07/2023 21:31	101700180	VTHH IR CT RM		5*	No		03/03/2023 16:42:00	03/07/2023 07:22:07	3 - SIUS14	
RH RHC (NORMAL HEART)	03/07/2023 16:41	101700117	VTHH CC PROC RM 01		18*	No		03/03/2023 16:38:30	03/13/2023 15:11:15	3 - SIUS14	
RH LT HRT ART/VENTRICLE ANGIO	02/07/2023 08:00	101700117	VTHH CC RM 01		20*	No		02/07/2023 13:03:20	02/07/2023 13:27:11	3 - SIUS14	
ANOSCOPY	11/24/2022 09:19	101700123	VTHH MAIN OR 01		1*	No		11/24/2022 09:19:50	11/24/2022 09:26:23		
AMPUTATION DIGIT FOOT	11/21/2022 08:56	101700123	VTHH MAIN OR 01		1*	No		11/21/2022 08:56:45	11/21/2022 09:01:30		

The goal is to have all errors fixed before the end of each day.

This will ensure documented supplies/implants are in Epic before the logs auto post at midnight. Open the case in Epic and launch the CDUI to fix errors.
