

VERIFY A CASE

Verify a case after the case is complete.

Piece Count with Expected Usage

1. Account for all returned items in the case.
2. Launch the **Case Verification** resource.
3. Scan the case number. **Select Continue**.
4. Enter the Piece Count number of items in the cart. **Select Continue**.
5. Once all items on the cart have been counted, select **Complete Verification**. A “Case Verification was successful” message will appear.
6. Proceed to case cart putaway.

Piece Count Mismatch Error

1. If an error message appears instead, scan each item being returned to inventory.
2. Select **Continue**.
3. Select **Start Putaway** to begin the putaway process.
 - Alternatively, select **Complete Verification** to continue verifying other cases before performing a putaway of all items.
