DESIGN FOR PATIENTS AND FAMILIES

We will care for people in a compassionate and personalized way, wherever they are, whenever they need us.

MAKE DIVERSITY AND INCLUSION INTENTIONAL

We will reflect the diversity of the populations we serve in our teams, programs and communications; and be inclusive in our processes and decisions.

DISCOVER, LEARN AND SHARE

Our collaborative learning environment ensures we will remain nimble and distinctive as a national leader in biomedical discovery, health care and training. As we integrate expertise and data, we will expand and create new research capabilities to make discoveries of value and translate them quickly to patients and our community.

AMPLIFY INNOVATION

Innovation is essential to the future of academic medicine. We will develop a culture of innovation where discoveries, products and services are converted into meaningful value.
