Immunization Compliance for Registration Instructions:

Step 1	Take this health form to your provider to have them complete & sign. <i>Our form also contains important emergency contact information and health history—therefore is preferred.</i> However, If you do not have a provider, you may submit official prior medical, state, county, or international immunization records.
Step 2	Since you are a new student, you will need to create an account in our student health portal at https://vanderbilt.studenthealthportal.com . You must wait 24 hours from claiming your VUNet ID to use this unique HIPAA compliant system. After logging in, click on the link to register, enter the requested info, and a unique password will be emailed to you within minutes.
Step 3	After you receive your password and log back into the portal, go to FORMS and enter your immunization vaccinations dates into the portal (these are the dates on page 2 of our form).
Step 4	Scan and upload all 4 pages of our form + any additional immunization records that you may have by using the DOCUMENT UPLOAD tab. Save your hard copies in a secure location.
Step 5	Allow Student Health 7 business days to review your documentations and verify compliance. Student Health will send you a confirmation message (via the portal) when your records have been reviewed and accepted for compliance. If they have not been accepted, you will get a next steps message. The registrar’s office will then remove your registration hold in the YES system and you can register at your assigned time.
