

MICROSOFT INTUNE MOBILE

Android Setup Guide

OS Version: 10 | Intune |
Example Device: Samsung Galaxy A30

Note: This device guide is based on the above listed device and operating system version, steps may differ for different device or operating system versions.

Android Setup Guide

There are **2 stages** to complete this process.

- 1) **Install and configure Outlook**
- 2) **Install VUMC approved apps (as required)**

Heads up! The setup process will take approximately 10 to 25 minutes.

Prerequisites

- ° **Email Address:** This is your @VUMC.org email address.
- ° **VUMC ID and Password:** You will need your VUMC credentials to sign in.
- ° **Connectivity:** You will need an active 3G or higher, or a Wi-Fi connection.
- ° **Battery:** Ensure your device has been charged and has at least 50% of battery remaining to complete the enrollment.
- ° **Google Play ID:** Your Google Play Store ID and password will be required to install apps.

Do you have mobile device management on your phone?

If you have WorkSpace One for mobile device management on your phone, you'll need to **unenroll** before you setup Intune.

If you don't have WorkSpace One for MDM on your phone, keep going.

TO UNENROLL:

1. Launch the "Hub" app:
2. On the account screen select This Device, then select Enrollment, then Unenroll Device.
3. Select **Unenroll** on the confirmation box.

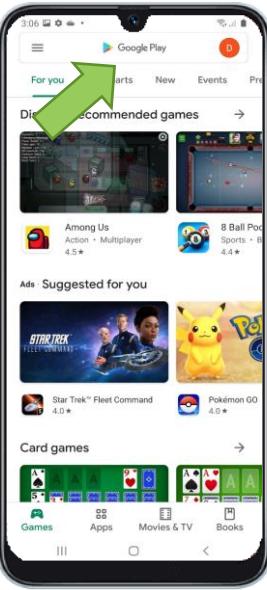

NOTE: Some folks lose their MultiPASS+ MFA token when they un-enroll from the MDM tool. If this happens, submit a Pegasus Ticket for a new MFA Token (<https://pegasus.vumc.org/request/start/2604/?s=>) to have your token added back to your device.

1) Install and configure Outlook

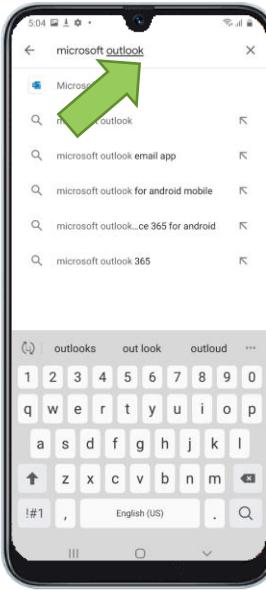

Step 1

From the home screen open the **Play Store**

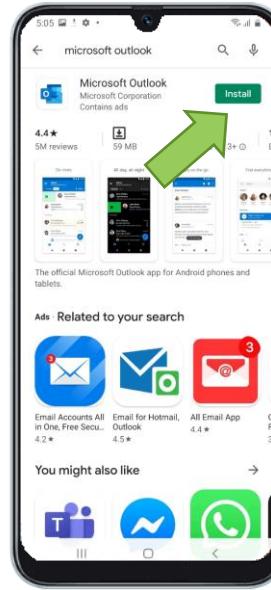

Step 2

Select the **Search bar** at the top of the screen

Step 3

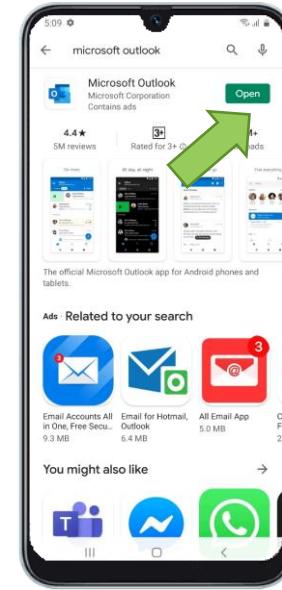

Type in **Microsoft Outlook** and select **Search** to find the Microsoft Outlook email app

Step 4

Select **Install**

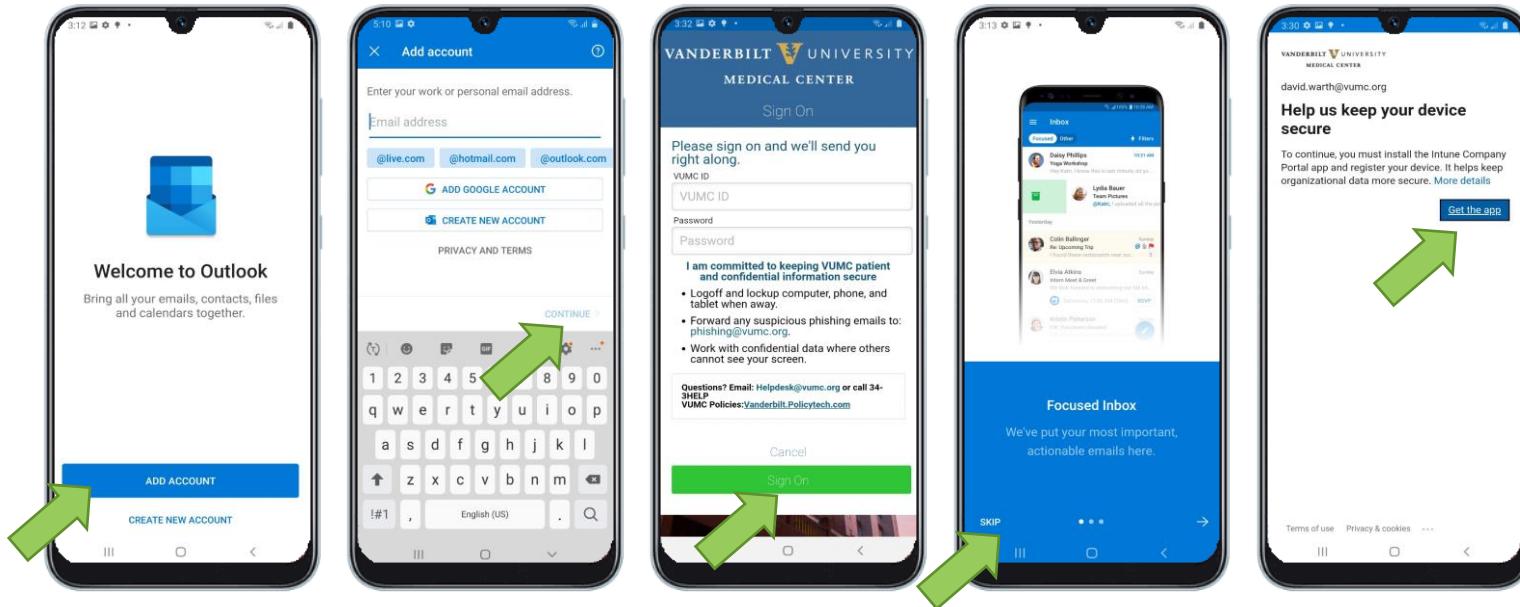

Note: The app may take a couple of minutes to install

Step 5

Select **Open**

1) Install and configure Outlook

Step 6

Select **ADD ACCOUNT**
Note: Some screens may differ depending on the device and app version

Step 7

Enter your VUMC email address then select **CONTINUE**

Step 8

Enter your VUMC ID and Password then select **Sign On**

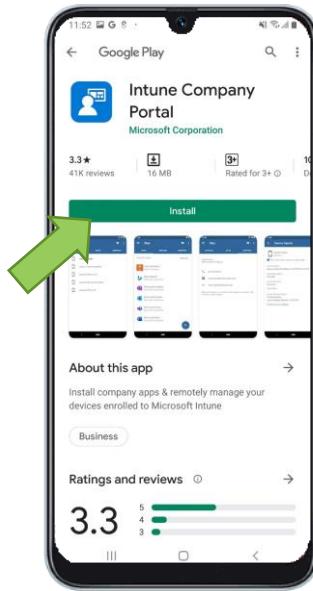

Step 9

Select **SKIP**

Step 10

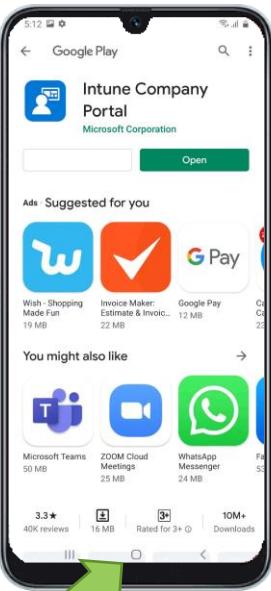

Select **Get the app**

1) Install and configure Outlook

Step 11

Select **Install**

Step 12

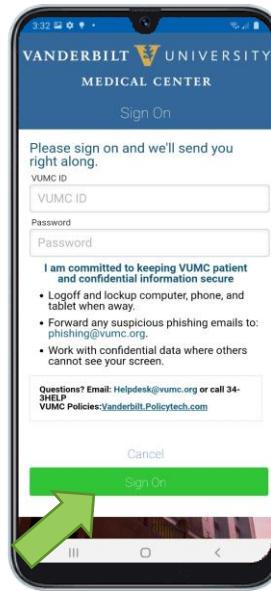

Once installed, press the **home** button

Important: Do not open or configure the Intune Company Portal app.

Step 13

Swipe up from the middle of the screen to display all apps then open the **Outlook** app

Step 14

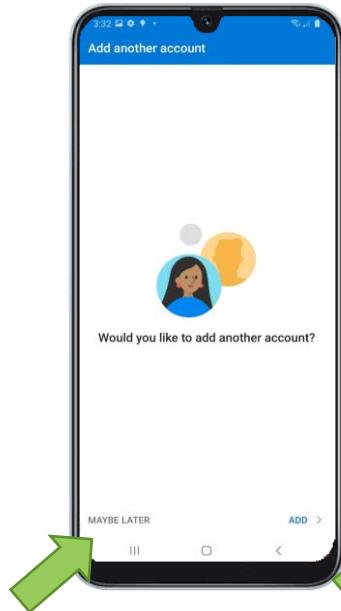

Enter your VUMC ID and Password then select **Sign On**

Step 15

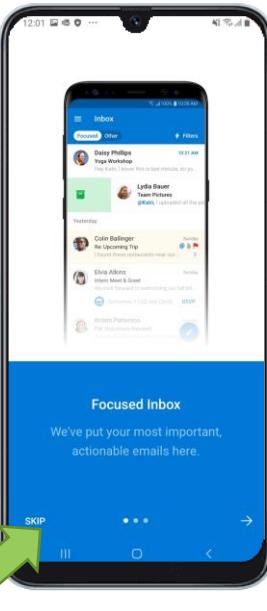

Select **Register**

1) Install and configure Outlook

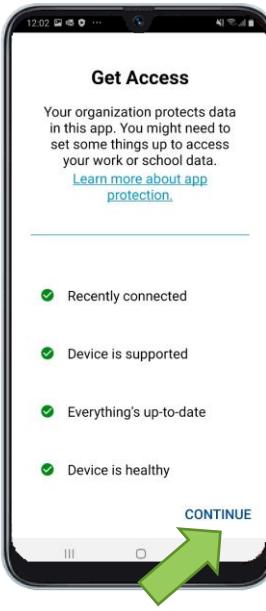

Step 16

Select **MAYBE LATER**

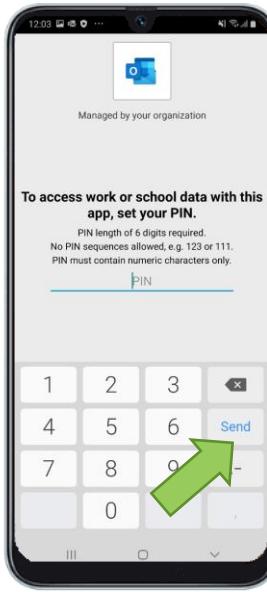

Step 17

Select **SKIP**

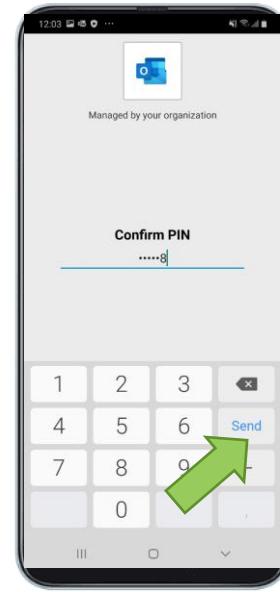

Step 18

Select **CONTINUE**

Step 19

Create a **PIN**, then select **Send**

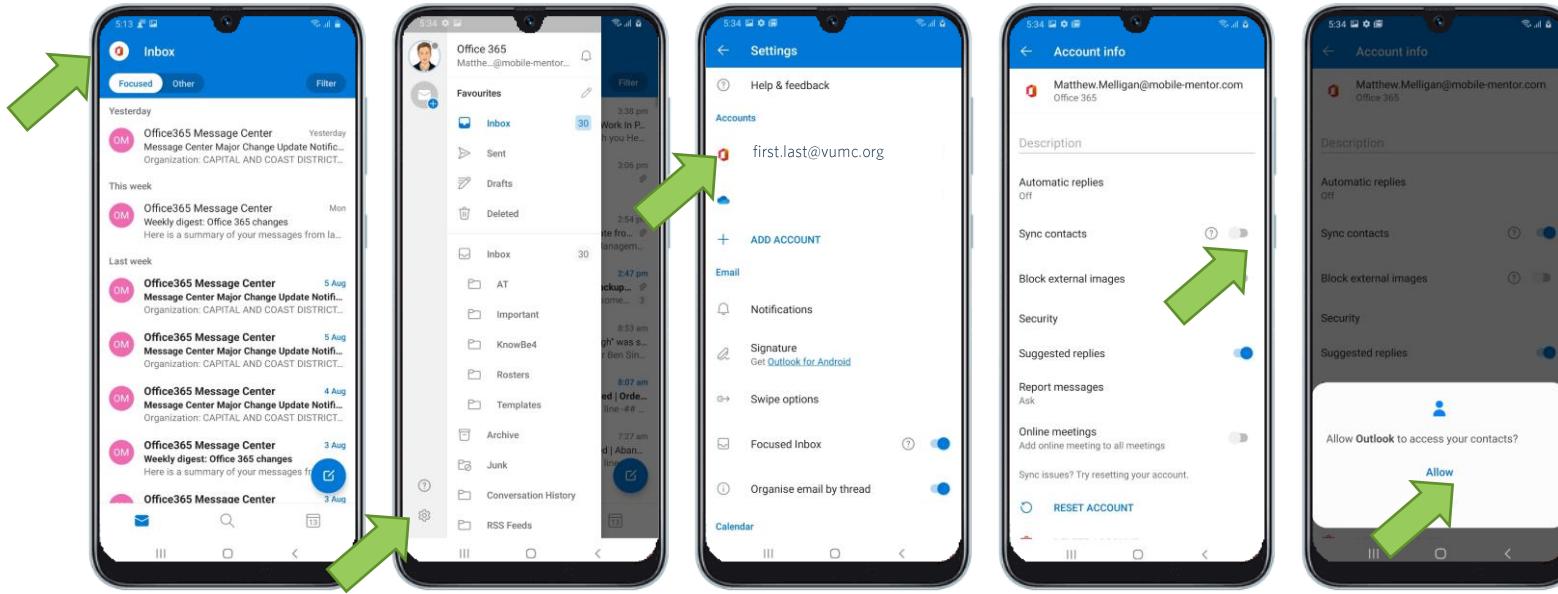

Step 20

Re-enter your chosen **PIN**, then select **Send**

Note: This PIN will be required for all VUMC apps

1) Install and configure Outlook

Step 21

Select your **profile**
(top left of screen)

Step 22

Select **Settings**
(the cog icon,
bottom left of
screen)

Step 23

Select your VUMC
Office 365 email
account

Step 24

Toggle **Sync contacts**
to the "On" and blue
position

Step 25

Select **Allow**

2) Install VUMC approved apps

- To protect VUMC Data, accessing VUMC email and resources requires using an approved app
- Each app will need to be installed individually and requires **the same PIN** that you setup in Step 19 of this guide. An example of how to install an App is shown in the next slide. Repeat the installation for each app you want to install.
- A list of currently available apps are shown below. We will add more apps over time.

Microsoft Edge

Microsoft Outlook

Microsoft SharePoint

Microsoft Excel

Microsoft Stream

Microsoft Word

Microsoft Lens

Microsoft Teams

Microsoft PowerPoint

Microsoft Office

Microsoft OneDrive

Skype for Business

Microsoft To-Do

Microsoft OneNote

vumc2go

Microsoft Visio Viewer

Microsoft Planner

2) Install VUMC approved apps - Example

Step 1

From the home screen open the **Play Store**

Step 2

Select the **Search bar**

Step 3

Enter the **app name** into the search bar, then select it from the result list

Step 4

Select **INSTALL**. The app will download and install. **Reminder:** when opening the app, you will need to enter the PIN created in step 13.

Adventure Awaits - Let's Go!
