

Scavenger Hunt

The goal of the orientation shift is to:

- Identify how to access commonly used equipment and supplies on the unit.
- Review the skills within the scope of practice of an instructor.
- Access resources that support patient care.

Resources

Instructions

This unit orientation scavenger hunt must be completed and submitted, as directed by student placement, by *at least one week prior* to the clinical rotation start date. Student placement will send a request to upload the orientation record at that time.

- The information I submit is complete (with dates), true, and accurately reflects my work and abilities to function as a clinical instructor on the designated unit.
- I know and will exhibit the following CREDO Behaviors in my role as a clinical instructor: I make those I serve my highest priority, I respect privacy and confidentiality, I communicate effectively, I conduct myself professionally, I have a sense of ownership, and I am committed to my colleagues.

Clinical Instructor Name: _____

Clinical Instructor Signature: _____ Date _____
