

Instructions for “Choose your own adventure: *H. pylori* Infection” Activity

We’re going to go on an adventure of **your** choosing! You have a tough job – you have to guide *Helicobacter pylori* to successfully infect a human host! There will be several important decisions along the way. Here’s how you navigate the adventure:

Materials:

1. Computer with PowerPoint capabilities
2. All of the files you can download from the MegaMicrobe site, so you can do exciting experiments related to *H. pylori* infection when you’re prompted to.

Method:

1. Open the PowerPoint file called “Bacteria - Choose Your Own Adventure.pptx”
2. **Important:** Put the slides into “slide show” view (this will make all of the buttons work properly)
3. Navigate an *H. pylori* infection by clicking on the icons that represent your choice.
 - a. If you make a mistake, that’s okay! There’s a “Try Again” button in the top left corner of each incorrect choice. Click that to go back to the challenge and try again!
 - b. If you make the correct choice, great job! Click the “Next” button in the top right to go to your next challenge.
 - c. Sometimes, correct choices will be paired with an activity! That’s when you’ll need the files mentioned in step 2 of the Materials section. At this point, exit the slide show view of the PowerPoint so you can open up the files you need to do your activity!
4. After completing an activity, make sure you put the PowerPoint back into slide show view to continue your *H. pylori* infection adventure!
